

OSU Human Genetics Sample Bank Pricing Schedule

Sample/Service	Sample Deposit (paid by depositing PI)	Sample Purchase 1 HG/CCC investigators	Sample Purchase outside investigators	Sample Withdrawal ² by depositing PI
DNA (extracted from blood)	\$15 (Salt Extraction)	\$5/ug	\$10/ug	\$1/ug
DNA (extracted from Scope mouthwash, blood, cell line prior to initial freeze)	\$50 (Phenol Extraction)	\$5/ug	\$10/ug	\$1/ug
Trizol Cell pellets (from blood or cell line prior to initial freeze down)	\$15	N/A	N/A	\$10/entire pellet
Plasma	\$10	\$20/aliquot ⁴	\$40/aliquot ⁴	\$2/aliquot ⁴
Lymphoblastoid cell line (initiation through freeze down— <u>3 freeze downs</u>)	\$150	\$75/flask	\$200/flask	\$10/frozen vial ⁵ \$50/flask
Lymphoblastoid cell line (initiation through freeze down— <u>6 freeze downs</u>)	\$200	\$75/flask	\$200/flask	\$10/frozen vial ⁵ \$50/flask
PBS cell pellets from Scope (2)	\$10	Price Available Upon Request	Price Available Upon Request	\$1/pellet
RNA (extracted from a trizol cell pellet made from blood or cell line)	\$45	\$10/ug + \$45 for RNA extraction if sample is still a Trizol pellet (3 ug limit) ³	\$20/ug + \$45 for RNA extraction if sample is still a Trizol pellet (3 ug limit) ³	\$1/ug
Trizol Cell pellets (from saliva)	\$15	N/A	N/A	\$2/entire pellet
Fibroblast cell line (initiation through freeze down –16 freeze downs)	\$900	\$350/flask ³	\$900/flask ³	\$10/frozen vial ⁵ \$50/flask
Deposit of Frozen Tissue (pair)	\$5/pair	Price Available Upon Request	Price Available Upon Request	
Transfer of portion of Frozen Tissue		Price Available Upon Request	Price Available Upon Request	\$5/pair
DNA (extracted frozen tissue --pair)	\$50/pair	Price Available Upon Request	Price Available Upon Request	\$1/ug
DNA (extracted from a paraffin-tissue core)	\$55/core	\$10/ug (3 ug limit) ³	\$20/ug (3 ug limit) ³	\$1/ug
RNA (extracted from a paraffin-tissue core)	\$55/core	\$10/ug (3 ug limit) ³	\$20/ug (3 ug limit) ³	\$1/ug
DNA (extracted from cell line prior to initial freeze down)	\$30 (Salt Extraction)	\$5/ug	\$10/ug	\$1/ug
RNA (extracted from a cell line prior to initial freeze down)	\$55	\$10/ug (3 ug limit) ³	\$20/ug (3 ug limit) ³	\$1/ug
DNA (extracted from cell line after thawing)	\$50	\$10/ug (3 ug limit) ³	\$20/ug (3 ug limit) ³	\$1/ug
RNA (extracted from a cell line after thawing)	\$65	\$10/ug (3 ug limit) ³	\$20/ug (3 ug limit) ³	\$1/ug
DNA extracted from buccal swab	\$50 ⁶	\$10/ug (3 ug limit) ³	\$20/ug (3 ug limit) ³	\$1/ug
Pax Gene RNA	\$120	\$15/ug	\$30/ug	\$1/ug
Pax Gene DNA	\$80	\$5/ug	\$10/ug	\$1/ug
Thawing cell line and making more freeze downs (4 freeze downs)	\$100			

Notes:

1. All OSU HG/CCC principle investigators will receive a minimum 50% discount on the list prices for outside investigators.
2. These prices are available to contributing PI's who paid for the sample to be deposited in the sample bank.
3. Because of limited quantity purchases require the permission of the depositing PI.
4. An aliquot of plasma contains approximately 500 uL. Plasma is divided equally into three vials after extraction for storage.
5. Non-PI investigators cannot receive a vial of frozen cells from a cell line. They must receive a flask of thawed cells.
6. Cost is lower if 10 or more samples are submitted at a time (please contact Sample Bank 293-4685 for updated pricing)
