Advances and Innovations in Digestive Diseases

Presented by
The Ohio State University, Digestive Diseases Center

Saturday
January 17, 2015

The Ohio State University
115 Biomedical Research Tower
460 W. 12th Avenue, Columbus, OH 43210
Needs Assessment:
The management of digestive diseases demands a multidisciplinary approach where general surgeons and gastroenterologists will need to work together as they encounter patients with complex digestive disorders that require medical and surgical management. The course will familiarize participants with endoscopy and surgical procedures by providing didactic lectures, panel discussions, and video review.

Course Overview:
This one day course is designed for general surgeons and gastroenterologists whom are interested in the multidisciplinary approach of the digestive disorder.

Objectives:
Completion of this course will enable participants to:
1. Define the role of pre and post-operative upper endoscopy for bariatric surgery patients
2. Discuss updates and changes in the surgical and medical management of esophageal and pancreatic disorders
3. Identify new strategies and techniques for diseases of the liver and biliary tract
4. Review new recommendations and treatments for colorectal cancers
5. Report on new updates in the treatment of palliative, complementary and alternative medicine for digestive diseases

Accreditation
The Ohio State University Medical Center, Center for Continuing Medical Education is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians. The Ohio State University Medical Center designates this educational activity for a maximum of 8 AMA PRA Category I Credit™.
