Initiation of insulin in Type 2 diabetes: What Are the Controversies?
Benjamin O’Donnell M.D.
Assistant Professor
Division of Endocrinology, Diabetes and Metabolism
The Ohio State University Wexner Medical Center

8:00 p.m.
Panel Discussion and Q&A

8:30 p.m.
Adjourn

Objectives
Upon Conclusion of this activity, learners will be able to:
1. Identify patients with type 2 diabetes that are candidates for insulin therapy.
2. Identify barriers, from both the patient’s and provider’s perspective, to initiating insulin.
3. Discuss strategies to optimize success when starting a patient on insulin.
