LETTER FROM THE CHAIR

It has been another great year for the Department of Family Medicine at The Ohio State University College of Medicine. I will remind us all of just a few of our accomplishments:

Dr. Ann McAlearney joined the Department on July 1st as Professor and Vice Chair of Research. Dr. McAlearney received both her BAS and MS from Stanford and received her ScD from Harvard’s School of Public Health in 1995. We are expecting great things of Ann and the team that she will be recruiting.

Dr. Randy Wexler agreed to serve as Vice Chair of Clinical Affairs. Randy joined our department on July 1, 2000 and received his MPH from The Ohio State University. We are sure he and Dr. McAlearney will work together in furthering the strategic plan for the department.

Dr. Allison Macerollo, Assistant Professor of Clinical Family Medicine, was presented the 2012 College of Medicine Distinguished Educator Award this past year. This award recognizes recipients’ dedication to teaching, their ability to be a positive role model for students, the quality and quantity of interactions with students, their enthusiasm for teaching, their pursuit of excellence in scholarly activity, and capabilities in educational leadership.

Dr. Rebecca Grant, who was one of 12 family physicians in the nation to receive the American Academy of Family Physicians Foundation 2012 Pfizer Teacher Development Award.

At Business First’s annual Health Care Heroes event, Dr. Riza Conroy, Clinical Assistant Professor of Family Medicine, was honored as a Health Care Hero in the Underserved Care category. Dr. Conroy was honored for her work with the Health and Wellness Helping Hands Free Clinic on the northeast side of Columbus, a clinic that she helped found in 2007.

Dr. Fred Miser, Professor of Family Medicine and Ohio State Family Medicine Residency Director, was named by the Ohio Academy of Family Medicine as the 2012 Family Medicine Educator of the Year.

Dr. Lorraine Wallace, Associate Professor of Family Medicine, was chosen to direct the Community Health Education Project component of the new Lead/Serve/Inspire College of Medicine curriculum.

Dr. Don Mack, Assistant Professor of Clinical Family Medicine, was chosen to direct the Health Coaching Project (HCP) component of the new Lead/Serve/Inspire College of Medicine curriculum.

Dr. Leon McDougle, Associate Professor of Family Medicine and Associate Dean for Diversity and Cultural Affairs, has been invited to review for the New England Journal of Medicine. This is quite an honor given the prestigious nature of the Journal.

The team of Ohio State primary care residencies, namely family medicine, pediatrics, and general internal medicine, was invited to participate in a HRSA-funded Primary Care Faculty Development Initiative. The intent of the project is that primary care faculty will be empowered to embrace fully the changes involved in adopting the Patient-Centered Medical Home (PCMH) model of care. The Ohio State team will join with three other teams to collaborate with faculty and staff from the Oregon Health & Science University in the conduct of this project.

Dr. Laurie Belknap, Clinical Assistant Professor of Family Medicine, was selected for the 2014 Class of the Society of Teachers of Family Medicine's Emerging Leadership Program. The Emerging Leaders Program is designed to teach the complexities of successfully leading a team toward completion of a project. Participants learn from workshops, coaches, small-group learning communities, and their peers.

At the Annual Meeting of the Association of Family Medicine Residency Directors, Dr. Fred Miser, Professor of Family Medicine and Director of the Ohio State Family Medicine Residency Program, was elected to the Board. Dr. Miser’s term is for two years, which can be repeated if elected again.

The Robert Wood Johnson Foundation (RWJF) recently awarded funding to Dr. Ann McAlearney, Professor of Family Medicine and Vice Chair of Research, for a two-year project in the amount of $400,000. The project, “Studying the Development, Implementation, and Impact of Accountable Care Organizations and Their Strategies to Reduce Disparities in Care,” has an overall goal to explore Accountable Care Organizations (ACOs) as they develop in the private sector.

Dr. Allison Macerollo received the 2013 Faculty Teaching Award from The Ohio State University College of Medicine Alumni Association.
Dr. Thomas Best was named as one of three Associate Editors-in-Chief of Medicine and Science in Sports and Exercise (MSSE). This journal, read by a worldwide audience, is the official journal of the American College of Sports Medicine and one of the leading peer-reviewed sport sciences publications.

Dr. Douglas Post, Professor of Family Medicine and Assistant Dean will serve as a Co-Investigator on a recently funded Patient-Centered Outcomes Research Institute (PCORI) grant. The grant project, “Randomized Controlled Trial of a Patient Activation Tool in Pediatric Appendicitis,” was awarded to the Research Institute at Nationwide Children’s Hospital with Dr. Katherine Deans serving as Principal Investigator.

Dr. Thomas Best, Professor and Pomerene Chair and Director of the Division of Sports Medicine, will serve as a Co-Investigator on grant recently funded by the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS). Ajit Chaudhari, PhD, FACSM, Assistant Professor of Orthopaedics and Co-Director of the OSU Sports Medicine Movement Analysis & Performance Research Program, will serve as the Principal Investigator on the project entitled, “Influence of Core Stability on Running Mechanics in Novice Runners.”

Dr. Maryanna Klatt, Clinical Associate Professor of Family Medicine, was nominated by Dean Charles Lockwood to participate in the 2013-2014 President and Provost’s Leadership Institute at The Ohio State University.

Dr. Randy Wexler, Associate Professor and Vice Chair of Clinical Affairs, will serve as a Co-Investigator on a Small Business Innovation Research (SBIR) program grant funded by the National Institutes of Health (NIH). Dr. Chris Taylor, Associate Professor of Medical Dietetics at The Ohio State University, will serve as site Principal Investigator of the project.

Dr. James Borchers, Associate Clinical Professor and Primary Care Sports Medicine Fellowship Director, was named Physician Lead for Clinical Operations for OSU Sports Medicine. In his new role, Dr. Borchers will be responsible for coordinating and overseeing clinical issues across all OSU Sports Medicine locations.

The Agency for Healthcare Research and Quality (AHRQ) has awarded a five-year, almost $600,000 grant to the Collaborative Ohio Inquiry Network (COIN). The COIN network is aimed at aligning quality health care research in Ohio by bringing together many of Ohio’s Practice-Based Research Networks (PBRNs). Case Western Reserve University will serve as the PI on the grant and work with The Ohio State University, the University of Cincinnati and the Northeast Ohio Medical University and their PBRN networks.

The Leadership Development Committee in the Center for FAME chose Dr. Randy Wexler and Dr. Maryanna Klatt as part of the first cohort of the Faculty Leadership Institute (FLI), starting in April, 2013 at The Ohio State University College of Medicine.

Of 34 family physicians listed as Best Doctors 2013 in Central Ohio, our Department had 15 of them and 27 are faculty members in the Ohio State Department of Family Medicine (79%). Of our Regular Track faculty, Drs. Glen Aukerman, Tom Best, Jim Borchers, Bill Buoni, Pat Fahey, Ruslana Kurpita, Allison Macerollo, Don Mack, John McConaghy, Leon McDougle, Fred Miser, Perry Mostov, Milisa Rizer, Luis Salazar, and Mary Jo Welker were identified as Best Doctors. Of our Auxiliary Track faculty, Drs. David Applegate, Ed Bope, Chad Braun, Alyssia Herzog, Doug Knutson, John Lombardo, Thomas Pommering, Kristen Rundell, Robert Skully, James Soldano, and John Weigand were identified as Best Doctors.

The Ohio State University College of Nursing began providing clinical care at University Hospital East starting January 2013. This is the College’s first nurse-led clinic. The clinic, Total Health & Wellness, will be directed by Kristie Flamm, a nurse practitioner. Dr. Mary Jo Welker, Professor of Clinical Family Medicine and Chair of the Department of Family Department, will serve as a physician collaborator as required by Ohio law.

Health Administration Press will make available a new textbook authored by Drs. Ann McAlearney and Anthony Kovner. Dr. McAlearney is Professor of Family Medicine and Vice Chair for Research in the Ohio State Department of Family Medicine. Entitled, Health Services Management: Cases, Readings, and Commentary, this is the 10th edition of the text.

Dr. McAlearney recruited 2 additional faculty to the research team during the FY13 academic year. Dr. Timothy Huerta joined the department along with Dr. Cindy Seick. The team is working well together and we are hopeful for an increase in the grants and publications for our department.

Our Department sites have been NCQA recognized level 3 Patient Centered Medical Homes under the 2008 guidelines for several years. We are now diligently working to have continued recognition under the 2011 guidelines and will submit those application documents later this fall.
Dr. Tennyson Williams, Professor Emeritus and Founding Chair of the Ohio State Department of Family Medicine, is currently being featured by the Medicine and the Arts Board in an exhibit in the glass cases at the entrance to Graves Hall. Dr. Williams continues to display his art work at the Faculty Club as well.

As you can see we are making great progress in our department and in the medical center overall. This year US News and World report moved our ranking up to #28 in primary care and we are proud of the progress we are making. And we are looking forward to another great year.

Thanks to all,

Mary Jo Welker
Professor– Clinical and Chair

As a leader in shaping the future of family medicine, our offices are all level 3, National Committee on Quality Assurance, Patient-Centered Medical Homes. This has allowed us to provide compassionate, personalized care while positively impacting clinical excellence in a collaborative team fashion, leading to innovations in patient care, education, research, and scholarship.

Randy Wexler, MD
Associate Professor
Vice Chair for Clinical Affairs

Our researchers are committed to advancing excellence in family medicine through collaborative projects designed to address primary care issues of both local and national importance. Investigators, including researchers and collaborating clinicians, are receiving national and international attention as we disseminate research findings to both academic and professional audiences. We also aim to achieve local impact by helping to promote quality improvement efforts with the primary care offices, consistent with the goals of our Primary Care Strategic Plan.

Ann Scheck McAlearney, ScD
Professor
Vice Chair for Research
MISSION
To optimize the quality of people’s lives by advancing family medicine principles through:

• Service
• Education
• Research and scholarship
• Personalized health care
• Community engagement

VISION
The Ohio State University Department of Family Medicine will be a recognized leader in shaping the future of family medicine.

VALUES
The Ohio State University Department of Family Medicine is committed to:

• Excellence
• Compassion
• Integrity
• Collaboration
• Innovation

As Chief Resident, I have the opportunity to be both a resident advocate and faculty liaison. This unique position allows me to listen to resident concerns and work with the leadership team to create innovative solutions that keeps our residency program at the cutting edge. At The Ohio State University Wexner Medical Center, we are privileged to be taught and mentored by motivated and dedicated faculty who are open to new ideas and care about not only our education, but about us as people. This teaching environment has resulted in well-trained, compassionate family physicians nationwide who take the meaning of patient-centered medical home to a new level.

Jacqueline Nguyen, MD
Chief Resident
Class of 2014
During the 2012-13 academic year, the offices of the Department of Family Medicine have been busy preparing for their re-recognition application as a National Committee on Quality Assurance (NCQA) Level 3 Patient-Centered Medical Home. After receiving level 3 recognition under the 2008 guidelines and progressing over the last three years, the Department will be applying under the more stringent 2011 guidelines.

To help guide us through the process, the department engaged the services of Donna Hedrick RN, a PCMH specialist who helps physician and physician groups apply for NCQA recognition. We worked closely with Donna on our 2008 application.

Over the last 10 months, a PCMH steering committee comprised of physicians, office managers from each office, and pharmacists, along with Donna, and Janel Grover, have met monthly to prepare the application. That group has provided the guidance on chronic disease management and prevention recommendations. Based on these recommendations, smartphrases for standard visit documentation, Patient Self Education Support, and Patient Education have been developed and are currently in use.

The Steering Committee has recommended the Department focus on improving immunization rates of Tdap, and pneumovax, as well as improving diabetes and blood pressure control. Finally, tobacco cessation education in general and diabetics who smoke specifically were recommended areas of focus.

Over the last 10 months the recommendations of the Steering Committee were implemented at all offices. Results were positive in all areas targeted. Tdap and pneumovax rates increased. There was a drop in the average HgbA1C and blood pressure across the network. Smoking cessation counseling improved significantly.

Overall, PCMH transformation has been positive across the network with improved work flows and improved patient care.

This year we collaborated with the College of Nursing to start the first nurse practitioner clinic here at Ohio State University Hospital East. This clinic is partially supported by a grant from HRSA and is functioning as a multidisciplinary clinic. Dr. Mary Jo Welker serves as the collaborating physician and in addition to the two family nurse practitioners there is a dietician, a social worker, a pharmacist, and a psychiatric nurse practitioner. The goal includes a multidisciplinary teaching program for the disciplines and colleges involved in the site. They offer care to all patients, including those with no insurance and the volume continues to grow. The future will hold more of these practices as the need for primary care providers increases with the demand from the expansion of coverage.

Opening of our New Albany Clinic:

During the year, we also opened our New Albany practice. Dr. Mary Jo Welker moved her practice from Rardin and Dr. Joel Wood moved his practice from CarePoint Gahanna to start the New Albany Practice.

We also added a number of physicians at our practices. We welcomed:

- Maria Barnett, DO to CarePoint East
- Karyn Governale, MD to CarePoint Gahanna
- Mirtam Garcellano, DO to CarePoint East
- David Kageorge, MD to our New Albany office
- James Shaw, PsyD to our Rardin office
- Robert Sinsheimer, MD to our Worthington office
- Marianne Trotter, MD to our Rardin office
- Jessica Wertz, DO to our Worthington office and our Lewis Center and Stoneridge Sports Medicine Offices.
Additionally, we had faculty formally join our department who had been associated with the department but employed by our health system:

Stephanie Cook, DO – University Health Connection
Arthur Hale, MD – Prison contract
Paul Kirk, MD – Employee Health
Maryann Wynd, MD – Occupational Medicine

Unfortunately, we said goodbye to some faculty:

Arthur Hale, MD who moved to direct employment with the prison
Orin Hall, MD who left our Occupational Medicine practice
Jessica Wertz, DO who left our Worthington practice and Lewis Center and Stoneridge Sports Medicine practices to move out of state.

We also said goodbye to some very special faculty due to retirement:

Glen Aukerman, MD from our Integrative Medicine practice
Patrick Fahey, MD from our Rardin Practice
Edna Jones, MD from our CarePoint Gahanna office
Elizabeth Tuttle, MD from our Worthington office

During 2012-13, we expanded the number of faculty who served on our in-patient service at OSU East. Drs. Maria Barnett and Miriam Garcellano joined Drs. Allison Macerollo, Rupal Oza, John McConaghy, Veronique Bartman and Fred Miser on the inpatient service.

KRA-related data regarding in-patient admissions demonstrate a declining pattern across recent years. This trend is not surprising in that it reflects changing practices in all of health care delivery with greater emphasis on out-patient care. As well, our Length-of-Stay data reflect national trends regarding in-patient care tending toward shorter stays in the hospital with concomitant increases in out-patient care.

**Obstetrical Care**

Our deliveries this year were preformed under the supervision of Obstetric Faculty at The Ohio State University Medical Center. Drs. Bill Buoni, Allison Macerollo, Fred Miser, Rupal Oza, and Miriam Garcellano provided the prenatal supervision.

**Occupational Medicine**

Occupational Medicine maintained high patient volumes with 1848 visits at the Occupational Medicine at CarePoint East and West offices.

Occupational Medicine West continues to provide initial health assessments and introduction to the U.S. health system to refugees from across the world including refugees from Somalia, Iraq, Bhutan, and Myanmar (Burma).

**Retail Clinics**

The partnership with the Giant Eagle grocery store chain continues to be a good experience. Our nurse practitioners in those sites are doing well, their patient satisfaction is high, and their convenience for patients is exceptional. For a couple of years we have been the collaborating physicians for the Kroger Little Clinic which is located in the same strip mall as our OSU Primary Care at Lewis Center office. In 2012-13, our collaboration with the Little Clinics at Kroger expanded and is future expanding in 2013-14.
Community Partnerships

Asian Health Initiative

The Asian Health Initiative is a jointly sponsored program between The Ohio State University Medical Center, The James Cancer Hospital and Solove Research Institute, Department of Family Medicine, the Coalition for Asian American Health, the Asian American Community Services, the Asian American Community Service Council, and the Southeast Asian United Methodist Ministries of Central Ohio. The Rardin Family Practice Center houses this initiative, providing care one half-day per week for non-English speaking patients, primarily an indigent population. This functions as a free clinic and medical students are invited to participate in this project.

Amethyst House

Dr. Edna Marie Jones provides services two half-days per week at Amethyst House, which is a drug and alcohol rehabilitation center for women and children. It is located on South High Street.

Latino Free Clinic

This clinic was started in December 2000 and is a jointly sponsored program among the following entities: The Ohio State University Medical Center, the Latino Health Alliance, and Saint Vincent’s Family Services. The Rardin Family Practice Center houses this initiative, which provides care two half-days per month for Spanish-speaking patients, primarily an indigent population. It functions as a free clinic with Dr. Cregg Ashcraft serving as the medical director.

Columbus Free Clinic

The Columbus Free Clinic continues in the Rardin Family Practice Center on Thursday evenings. This is a free clinic run by medical students of The Ohio State University and supervised by volunteer physicians from the community. Our faculty and residents provide supervision along with other physicians from The Ohio State University and the community.

Noor Free Clinic

We continue to partner with the Noor Free Clinic which is staffed by the Muslim physicians and nurses from the central Ohio community. This free clinic is now held at the Rardin Family Practice Center on Wednesday evenings. Medical students are encouraged to participate.

Plans for the Future

- Expand our relationship with the Kroger Little Clinics to be the collaborating physicians for all their locations in Central Ohio.
- Expand the number of faculty covering our inpatient service at University Hospital East.
- Apply and receive level three recognition for all our clinics under the NCQA 2011 PCMH guidelines.
- Continue to grow our physician faculty.

Department of Family Medicine
2012-13 Annual Report

CLINIC SITES
The Ohio State University Department of Family Medicine has expanded research capacity with the addition of a Vice Chair for Research and new research faculty and support personnel over the last year. These changes further advance ongoing efforts toward becoming one of the top family medicine research departments in the nation.

Primary Care Collaboratory for Meaningful Medicine

Ann Scheck McAlearney, ScD, joined the Department as Professor and Vice Chair for Research in July 2012. Dr. McAlearney transitioned to the Department of Family Medicine from the Division of Health Services Management and Policy in the OSU College of Public Health. Dr. McAlearney is Principal Investigator of a grant funded by the Robert Wood Johnson Foundation entitled “Accountable Care Organizations: Measuring the Impact,” for which the primary aim is to explore Accountable Care Organizations (ACOs) as they develop in the private sector. In collaboration with Principal Investigator Dr. Randy Wexler, she is Co-PI on a grant funded by the Agency for Healthcare Research and Quality (AHRQ), “Use of HIT to Increase Primary Care Access in Medicaid Patients,” for which the primary aim is to develop, implement, and evaluate an Emergency Department-Primary Care Physicians (ED-PCP) Connector program using a health information technology (HIT) -based intervention to reduce ED utilization and increase primary care access for Medicaid patients who do not have a regular source of primary care.

Dr. McAlearney continues her collaborative work with the Mount Sinai School of Medicine on two federally-funded grants – “Implementing a Tracking and Feedback Registry To Allay Cancer Therapy Disparities (INTERACT),,” that is funded by the National Cancer Institute, and “Racial Disparities in the Quality of Prostate Cancer Care,” that is funded by the Department of Defense. Her recent article publications have focused on electronic health record implementation and review of patient-centered medical home (PCMH) implementation, in addition to work on the use of high-performance work practices in health care organizations, especially in the area of patient safety improvement. Dr. McAlearney and her growing research team, The Primary Care Collaboratory for Meaningful Medicine, submitted two grants to AHRQ earlier this year and are preparing two additional grant proposals to be submitted later in 2013.

Timothy R. Huerta, PhD, started with the Department in January 2013 as Associate Professor with a joint appointment in the Department of Biomedical Informatics, and in that capacity is positioning himself to foster researchers in the Clinical Research Informatics (CRI) track. He has begun to examine how meaningful use standards and HIT can help patients to engage with their providers to improve care delivery and health outcomes. Dr. Huerta has over 20 years of health services research experience. His research is highly quantitative, having drawn heavily from econometrics, social network theory and the mathematic side of complexity science. Dr. Huerta has supported the development of over 60 Continuing Medical Education sessions in three countries (Canada, Portugal and the US), including state, provincial, and health system-level content on health economics, productivity and outcomes research. His expertise in continuing education derived from three theoretic perspectives – social networks and social network analysis, communities of practice and productivity, which he developed in his NCI-funded post-doctoral fellowship. Dr. Huerta previously served as Assistant Professor for Health Organization Management in the Rawls College of Business at Texas Tech University.

Cynthia J. Sieck, PhD, joined the Department in April 2013 as Assistant Professor. Dr. Sieck transitioned from the Center for Health Outcomes, Policy and Evaluation Studies (HOPES) in the College of Public Health where she was a Research Specialist. Dr. Sieck presented work on the impact of a Health Risk Assessment on health behaviors and health risks at the American Public Health Association Annual Meeting, as well as results from two studies of the integration of mental and physical health care nationally at the AcademyHealth Annual Research Meeting, and locally to the Ohio Department of Mental Health. The results from the health risk assessment study were submitted to the Journal of Occupational and Environmental Medicine. In addition, she served as co-author with colleagues from the Department of Family Medicine on manuscripts related to a study of electronic health record implementation. Since joining the Department of Family Medicine, Dr. Sieck received seed grant funding to conduct a study with The Ohio State University Health Plan to understand what types of price information that consumers use in choosing among health plan options.
Jennifer L. Hefner, PhD, joined the Department as a post-doctoral researcher in August 2012. Prior to this appointment she received her PhD in health services research and policy from the University of Michigan. A paper from her dissertation research, Children with Special Health Care Needs and the Health Services System, was just published by the *Annals of the American Thoracic Society*. In addition, she has co-authored manuscripts involving a study of electronic health record implementation, an examination of health reform issues for family practice, and a project exploring hospitals’ efforts to eliminate healthcare-associated infections. Her paper, “Anatomy of a Clinical Practice Guideline”, was accepted for presentation at the 2013 North American Primary Care Research Group conference.

Pamela Thompson, BS, joined the Department as Clinical Research Coordinator in July 2013. Ms. Thompson transitioned from the Center for Health Outcomes, Policy and Evaluation (HOPES) in the OSU College of Public Health where she was a Program Coordinator. She has been actively supporting Dr. McAlearney’s grant from the Robert Wood Johnson Foundation.

Health Resources and Services Administration (HRSA) Bureau of Health Professions (BHPr) Grants

Progress continues on each of the three HRSA grants awarded to the Department of Family Medicine.

Dr. Doug Post has transitioned to the role of PI on predoctoral training grant project entitled, ‘Virtual Reality: A Unique Means to Teach the Reality of the Patient-Centered Medical Home.’ The major objectives of this project are to: (1) create virtual “realities” to enhance Ohio State College of Medicine students’ learning regarding patient-centered medical home (PCMH) principles, that can be adopted or adapted by other educational programs; (2) assure that Med 1 and Med 2 Ohio State medical students, through the present CAPS I and CAPS II pre-clinical curriculum, are well grounded in Quality Measures and Health Information Technology elements of the PCMH model; and (3) assure that Med 3 and Med 4 Ohio State medical students, through the present year-three 8-week Ambulatory Clerkship and year-four 4-week DOC 2 Chronic Care Preceptorship, are well grounded in Patient Experiences and Practice Organization elements of the PCMH model.

Dr. Fred Miser is PI on the residency training grant entitled, “The Patient-Centered Medical Home: Adaptable Curriculum Models, Instructional Modules, and Implementation Plans.” The primary goal of this project is to plan, develop, and implement educational and training modalities relative to the Ohio State University Family Medicine Residency Program that promote family medicine residents’ knowledge and abilities regarding the PCMH.
Dr. Mary Jo Welker is PI on the academic administration unit (AAU) grant entitled, “Ohio State Primary Care: Foundation for a Central Ohio Accountable Care Organization.” The purpose of this project is to empower the Department of Family Medicine and the Division of General Internal Medicine to be transformational change agents within the Ohio State University Health System toward establishing and expanding an Accountable Care Organization in Central Ohio.

Ohio State University Primary Care Practice Based Research Network (OSU-PCPBRN)

Efforts continue to advance and expand the Ohio State University Primary Care Practice Based Research Network (OSU-PCPBRN). The Agency for Healthcare Research and Quality (AHRQ) has awarded a five-year, almost $600,000 grant to the Collaborative Ohio Inquiry Network (COIN) aimed at aligning high-quality health care research in the state. The network brings together many of Ohio’s Practice-Based Research Networks (PBRNs), supported by Clinical and Translational Science Award (CTSA) consortiums from Case Western Reserve University, The Ohio State University, and University of Cincinnati, along with Northeast Ohio Medical University. PBRNs are groups of health care practices that are affiliated for the purpose of generating new knowledge relevant to improving health and health care in real world settings. PBRNs link practicing clinicians with researchers while enhancing the research skills of the network members. A learning community, COIN works to increase PBRNs’ research and development capacity and to aid in the translation of research into real-world practice. Case Western Reserve School of Medicine serves as the coordinating center, organizing and overseeing the execution of the grant. Currently, COIN has nine PBRNs across four sites, including the OSU-PCPBRN. The member PBRNs are specified below.

The Steering Committee of the OSU-PCPBRN has been actively participating in the development and implementation of COIN and includes the following members:

Mary Jo Welker, MD, Executive Director (COIN subaward PI)
Randy Wexler, MD, MPH, Clinical Co-Director for OSU Family Medicine
Harrison Weed, MD, MS, Clinical Co-Director for OSU General Internal Medicine
Olivia Thomas, MD, Clinical Co-Director for Nationwide Children’s Hospital
Parminder Bajwa, MD, MBA, Clinical Co-Director for Columbus Neighborhood Health Center, Inc.
Ann Scheck McAlearney, ScD, MS, Health Services Research Director
Milisa Rizer, MD, MPH, Informatics Director
Jennifer Lehman, BS, Manager & COIN Administrative Core Member
Predoctoral Education continues to lead a variety of curricular and extracurricular programming to enhance the learning of all medical students and encourage those students interested in family medicine to follow their heart. A team of committed teachers, facilitators, preceptors, and mentors works with premedical to graduating medical students. Committed students add leadership to our programs to improve outcomes. In August, 2012, the Lead.Serve.Inspire (LSI) Curriculum was launched to medical students in the Class of 2016.

In the Match, 9% of the class (18 students) again chose careers in family medicine, with many matching into top programs around the country. Family Medicine continues to be one of the top career choices for Ohio State medical students. Students will be pursuing Family Medicine residencies at:

- John Bernot    Wake Forest Baptist Medical Center, Winston Salem, NC
- Monica Chappell   Hinsdale Hospital, Hinsdale, IL
- Jordon Despain   Memorial Hospital, Great Bend, IN
- Joseph Gladwell   Riverside Methodist, Columbus, OH
- James Hoover    Riverside Methodist, Columbus, OH
- Chidimma Kalu    Somerset Medical Center, Somerville, NJ
- Linah Mairura    University of Minnesota, Minneapolis, MN
- Brett Martindale   McKay-Dee Hospital, Ogden, UT
- Marsha Morris   Barberton Hospital, Barberton, OH
- Michael Murphy   Palmetto Health, Columbia, SC
- Valerie Niedermier   Riverside Methodist, Columbus, OH
- Malorie Schoof   Mountain Area Health Education Center, Asheville, NC
- Kate Skipton   Williamsport Hospital, Williamsport, PA
- Christopher Smallwood   The Ohio State University, Columbus, OH
- Lem Smith   University of Illinois-Chicago, Chicago, IL
- David Tessier   The Ohio State University, Columbus, OH
- Colin Turney   Mount Carmel Health System, Columbus, OH
- Katie Wittwer   Christ Hospital, Cincinnati, OH

Clinical Assessment and Problem Solving (CAPS)

CAPS is a longitudinal course focused on student achievement of clinical competencies, including skills in patient-centered history taking, physical examination, behavioral/social sciences, clinical reasoning, professionalism, and ethics. Dr. Doug Post was the program director and Dr. Allison Macerollo was one of two associate program directors. Due to the implementation of the new LeadServeInspire (LSI) curriculum for the 2012-13 incoming class, only second-year students completed the full CAPS course. Family Medicine has been a strong contributor to CAPS since its inception, in terms of course leadership and small group facilitators who teach the course. This year, participating faculty included Drs. Laurie Belknap, Anup Kanodia, Janet Mason, Shalina Nair, and Eunice Oppenheim-Knudsen. Sixty-one members of our faculty hosted Med 2 students for their CAPS preceptorships. The preceptorship was longitudinal, as students met with their preceptors on a monthly basis. The students worked on various clinical skills, including patient interviewing, physical examination, and team-based care.

Our Summer Externship experience for students entering their Med 2 year included 7 inner-city and rural settings. The preceptors hosting students were: Kelly Flemming, Columbus Neighborhood Health Centers, Columbus; David Scoggin, Arbor View Family Medicine, Lancaster; and Coshocton County Memorial Hospital Family Practice, Coshocton. Drs. Welker, Cronau, Oza, and Miser hosted students at the Rardin Family Practice Center. Dr. Allison Macerollo coordinated student experiences at OSU CarePoint East Family Medicine.

The students presented at the Capstone Conference on their experiences and research findings. Student evaluations of the program remain very strong. Many thanks to the OAFP Foundation, the Byers Endowment Fund, and the Lancione Endowment Fund for funding our students.
LeadServeInspire (LSI)

The new LSI curriculum consists of three parts over four years of study. Part One, entitled Clinical Foundations, covers foundational sciences and clinical skills while Part Two, Clinical Applications, provides students with advanced foundational sciences and further clinical training across a spectrum of medical and surgical specialties. Part Three, Advanced Clinical Management, is designed to provide students with a variety of opportunities to individualize and advance their clinical skills. During Part 1, students participate in weekly Longitudinal Group (LG) sessions, similar to the small group sessions in CAPS. Topics include interpersonal communication, physical examination, behavioral/social sciences, and clinical reasoning. Family Medicine faculty who taught LG to first-year students included Drs. Belknap, Mack, Conroy, Alexander, and Tucker.

In addition, LSI students participate in Longitudinal Practice (LP) sessions one half-day every other week across Part One of LSI. Family Medicine faculty and practices are highly involved in teaching this preceptorship and important to its success. Students also complete Community Health Education (CHE) and Health Coaching (HC) projects in Part 1. Dr. Lorraine Wallace directs CHE, in which teams of students work with their preceptors to identify a community of patients in need of services, conducts a needs assessment with this community and, based on results, develops a program and evaluates its success. The Health Coaching project is directed by Dr. Don Mack. In year one, students are trained in health coaching skills and, in year two, conduct health coaching sessions with a patient identified by their LP preceptor. Part Two of LSI will be rolled out during the 2014-15 academic year. Part Two is characterized by three integrated clerkships. Patients Within Populations (PWP) is one of the three, combining Family Medicine, Pediatrics, and outpatient Internal Medicine. Dr. Holly Cronau was co-leader of the PWP Working Group and participating Family Medicine faculty included Drs. Belknap, Mack, Conroy, Alexander, and Tucker. We appreciate the significant contribution of Family Medicine faculty in the development and implementation of the successful LSI curriculum.

The Family Medicine Interest Group

The Family Medicine Interest Group (FMIG) has maintained its excellent tradition with a high number of student involvement and excitement. The FMIG Leadership provided yet another outstanding year of meetings and workshops. The year started with a panel event with family medicine physicians in all different areas: a private practice physician, a practitioner working in concierge medicine, a geriatrician faculty member and last, but not least, a fellow family physician who works at a federally qualified health center in town. Primary care week included a panel of primary care physicians in family medicine, internal medicine, pediatrics, and med/peds and focused on the patient-centered medical home. A new event was held during primary care week called "a walk over lunch" to raise awareness of exercise for our students and the patients they will see. A popular event is the role of the national patient-centered medical home. A new event was held during primary care week called "a walk over lunch" to raise awareness of exercise for our students and the patients they will see. A popular event is the role of the national patient-centered medical home. A new event was held during primary care week called "a walk over lunch" to raise awareness of exercise for our students and the patients they will see. A popular event is the role of the national patient-centered medical home.

In terms of financial support, FMIG obtained operating and programming funds from the Ohio Union, as well as grants from both the AAFP and OAFP to support our programs. Finally, FMIG receives support from sponsorship of the local residency programs, sponsorship of the Central Ohio Academy of Family Physicians, and the commitment of the Department of Family Medicine leadership and faculty.
Communications

The communications part of our programming continues to be strong. Dr. Macerollo oversees the production of the quarterly newsletter with the assistance of Program Coordinator, Amy Peters. It is distributed electronically, with print copies made available to College of Medicine programming and leaders. The newsletter featured updates for both local and national meetings, advice columns for the many aspects of medical student life, thoughtful articles on doctor patient relationships written by faculty, residents, and students and indepth review of topical issues such as mid level providers. The OSU FMIG Facebook site promotes the upcoming meetings and activities for our students. The Central Ohio Academy of Family Physicians continues its support of the newsletter in its ongoing partnership with the OSU FMIG.

Premedical Initiative

The Premedical Initiative Group (PMI) had a successful 2012-13 year. Headed by Sam Lu, Erica Mathieu, and Maradith Noonen, the group conducted several educational meetings for undergraduate students covering such topics as choosing a school to apply to, medical school interviewing techniques, preparing to take the MCAT, and other topics. The group met at University Hall which, by its location, is more in central campus and facilitates better attendance by the undergraduate students. The PMI group made presentations to the Alpha Epsilon Delta group (AED) which is OSU’s premed club.

Family Medicine Leadership Development Program (FMLDP)

The Family Medicine Leadership Development Program continues to serve as the central portal for engagement of students in the third and fourth year of medical school. The student-designed curriculum for 2012-13 centered on a leadership theme and introduced several new programs this year. Following are topics that were offered during the year:

8/15/11 “Individual Excellence can Change the World – a Curriculum from Self to Community to World”
10/17/11 “Individual Excellence can Change the World – a Curriculum from Self to Community to World”
11/21/11 “Career Options in Family Medicine”
12/9/11 Holiday Gathering
1/23/12 “Helping the Underserved – the Family Physician in the Community”
2/20/12 “Promoting Change in the Community - the Family Physician: Changing the Community and State Activism”
3/19/12 “Individual Excellence can Change the World – a Curriculum from Self to Community to World”

The FMLDP/FMIG sent seven students to the AAFP National Conference in July 2012. The students appreciated the financial support of the Department of Family Medicine for this conference.

Family Medicine Honors Program

The Honors Program had an exceptional year with seven students participating in the program with their innovative and creative projects. This program focuses on personal and professional growth. Each project is student designed and the student works with a faculty advisor. Projects span the world of family medicine from integrative medicine to patient education, patient health and wellness, clinical research, and community outreach. Student evaluations of this experience continue to be excellent and the presentation of the projects at the annual Honors Reception is testimony to the wonderful work of our students.
The annual Honors Reception is always a special evening. This year was no exception. The audience had a chance to hear about each of the Honors Program projects and celebrate each student's success. This special night honored fourth-year students with departmental awards including:

Tennyson Williams, MD Award in Humanism
Patrick Fahey, MD and Larry Gabel, PhD Award in Academic Excellence
John Lombardo, MD Award in Community Service
Glen Aukerman, MD Award in Leadership
Mary Jo Welker, MD Award in Professionalism
Margaret Lee
Brock Trejo
Benjamin Christensen
Jonathan Bonnet
Vaughn Harris

Seven 4th-year medical students presented their Honors Projects, including:

John Bernot: Data Mining: Physical Fitness and Activity
Jordon Despain: Expanding Medical Education in the Developing World
Bethany Elliott: Recipe for Prevention: a CDCynergy Health Communication Plan
Joseph Gladwell: Project SEND
Valerie Niedermier: Physical Activity in Kids: a Needs Assessment in the Near East Community
Malorie Schoof: The Readability of Patient Education Materials Provided by the American Academy of Family Physicians
David Tessier: Effective Use of Social Media by US Health Systems

FMLDP Officers
Co-Chairs: Valerie Niedermier, Malorie Schoof, and John Bernot
Faculty Advisors: Holly Cronau, MD and Allison Macerollo, MD

FMIG Officers
President: Chris Thomas
Vice President: Sophia Tolliver
Treasurer: Brian Myers
Meeting Coordinator: Megan Lawless
Workshop Coordinators: Chris Thomas, Sam Lu

Community Service
Tar Wars: Gregory Jungwirth
PMI: Sam Lu, Erica Mathieu, Maradith Noonen
Diabetes Screening Leadership: Katherine Zheng, Salma Shaikhouni, Kristen Mendoza
Newsletter: Maradith Noonen
Mount Carmel Van: Ava Feng

"The Department of Family Medicine gave me the opportunity to become involved in research early in medical school. I worked on a research project dealing with brief screening items to identify patients who are at risk for having low health literacy or numeracy skills. I was able to present this research at the North American Primary Care Research Group conference in New Orleans last December. Our paper was also recently published in the Journal of the American Board of Family Medicine. These experiences have been essential in helping me to establish the foundations of a career in family medicine in which I hope to care for patients in an underserved community while continuing to pursue research in primary care."

Vanessa Stagliano, M3, OSU Class of 2015
University and Urban Residency Program

The 2012-13 academic year was an incredibly busy and successful year as the University and Urban Programs continued to strive for excellence in educating family medicine residents. We are proud to bring in another outstanding class of first-year residents into our program. Much of the Programs’ continued success belongs to the wonderful support of the Department and the outstanding efforts of the residency faculty, staff, and residents who strive toward enhancing the culture and learning environment of the program.

Residency Administration

Dr. Fred Miser continued as Director of the Residency Program, assisted by Dr. John McConaghy, Associate Residency Director. Dr. Rupal Oza continued in the position of Urban Track Director. Ms. Sarah Germak continued in her role as Residency Program Coordinator and Ms. Brittany Campbell as Office Associate. Ms. Campbell is also responsible for Communications and Marketing for the Department. The Residency Committee continued to oversee residency activities, provide strategic direction, and ensure the program meets its goals. “Working Groups” for the Urban Track, curriculum review, and recruitment & residency advancement met to ensure forward momentum continued as the Program worked to implement programmatic changes. Task forces were created to enhance procedural training, didactic sessions, and teaching on the inpatient service for the residents. To improve administrative efficiency, the University and Urban Tracks were combined into one ACGME approved program while still maintaining separate identities for recruitment and the match. Great effort was made by all to prepare for the ACGME FM RRC site review which was successfully completed in October 2012. The program continues to be fully accredited!

Residents

First-year residents for the 2012-2013 academic year were:

Steven Albrechta, MD  Melissa Davis, MD (Urban Track)
Lisa Johns, MD  Kerry Kuffenkam, MD
Tri Le, MD  Charlene Lohner, MD (Urban Track)
Saida Omarova, MD  Jason Pedrick, MD*
Marie Schaefer, MD

*Joined with advanced credit from Emergency Medicine Residency

Second-year residents for the 2012-2013 academic year were:

Jason Foster, MD  Kerri Gibson, MD*
Rajeshwari Nagaraja, MD  Abha Tewari, MD, MPH
Tahir Maya, MD  Benish Aqil, MD (Urban Program)
Magdalena Teodorescu, MD, PhD  Jacqueline Nguyen, MD (Urban Program)
Michael Salama, MD

*Joined with advanced credit from Pathology Residency

Third-year residents who graduated from the Program in the 2012-2013 academic year:

Graduating Resident  Employment after Graduation
Margaret Apostol, MD  Family Practice with Lake Health, Ohio
Anette Bodoky, MD  Colonial Park Family Practice, Pennsylvania
Zak Boyd, MD  Family Practice, Ohio
Belmund Catague, MD  North Country Health Care, Arizona
Michael Donaworth, MD  Sports Medicine Fellowship/University of Cincinnati Athletic Department
Meana Gerges, MD  Cleveland Clinic, Ohio
Stacey Guan, MD  Urgent Care, Ohio
Mark Kahle, DO  St. Rita’s Medical Center, Ohio
Ayodeji (Greg) Ladele, DO  Private Practice, Florida
Tina Lee, MD  Family Practice, Ohio
Arthur Palmer, MD  OSU Family Medicine Practice, Ohio
Graduation Dinner
The Residency Graduation Dinner was held on June 15, 2013 at The OSU Golf Club. Guests included graduating residents, their families and significant others, residents, faculty, and staff. The residents were honored for their accomplishments and contributions to the program, and faculty members were given awards from the residents as thanks for their involvement with residency education. Drs. Mark Kahle and Michael Donaworth were commended for their contributions as Chief Resident and Co-chief Resident, respectively. Drs. Jason Pedrick and Marie Schaefer provided a very entertaining “roast” for the graduating residents. Dr. Fahey provided the keynote address to the graduates, commending the residents for their accomplishments as well as challenging them to keep learning. Dr. Fahey even delivered his own resident roast!

At the Residency Graduation Dinner a number of special awards were given to various residents and faculty:

RESIDENCY EDUCATION

Faculty
This year we were busy recruiting and hiring several quality faculty members, to include Drs. Maria Barnett, Miriam Garcellano, David Kageorge, Jim Shaw, Marianne Trotter and Veronique Bartman. In addition, Dr. Bushra Siddiqi joined us from the Worthington office and Dr. Aaron Clarke from the Gahanna office to precept the residents one-half day each week. Finally, we were busy recruiting as we have six additional faculty members joining us in the summer of 2013.

Preceptors in the Family Practice Centers included:
Bill Buoni, MD David Kageorge, MD Rupal Oza, MD
Maria Barnett Allison Macerollo, MD Luis Salazar, MD
Rob Crane, MD Don Mack, MD Bushra Siddiqi, MD
Pat Fahey, MD John McConaghy, MD Marianne Trotter, MD
Miriam Garcellano, DO Fred Miser, MD Angela Tucker, MD
Rebecca Grant, MD

Attendings on the Family Medicine In-Patient Teams included:
Maria Barnett, DO Miriam Garcellano, DO John McConaghy, MD Rupal Oza, MD
Veronique Bartman, MD Allison Macerollo, MD Fred Miser, MD

Faculty Development Series
Dr. Miser continued to lead a quarterly faculty development series for the faculty. Issues discussed included finding best evidence-based answers at the point of care, ambulatory teaching and evaluation, feedback on the fly, leadership in medicine, dealing with the learner in difficulty, and due process. We finished the year with the program’s annual evaluation and strategic planning.

Residency Awards and Accomplishments
Ohio State Family Medicine Residency Program faculty members Fred Miser, John McConaghy, and Don Mack were selected to participate in a HRSA-funded National PCMH Faculty Development Initiative. Our physicians are working with other Family Medicine, General Internal Medicine, and Pediatrics physicians from across the nation to develop best-practices in creating and maintaining a Patient-Centered Medical Home.

2012 40th Annual North American Primary Care Research Group Scientific Conference – For the first time in the program we had two residents who presented their scholarly activity at this international meeting, which was held in New Orleans, LA, December 1-5, 2012. Dr. Michael Donaworth presented his poster on An Assessment of Patient Knowledge Regarding Concussion while Dr. Meana Gerges presented his poster on Initial Prostate Specific Antigen (PSA) Screening Levels and Subsequent Development of Prostate Cancer—A Retrospective Review. Joined by faculty members Drs. Lorraine Wallace and Fred Miser, they not only had an opportunity to present their material, but also learned much about the research process while enjoying the Big Easy.

Dr. Allison Macerollo received the 2012 College of Medicine Distinguished Educator Award and 2013 Alumni Faculty Teaching Award. These awards are a testament to Dr. Macerollo’s dedication to teaching and mentoring students as well as her dedication to the promotion of Family Medicine.

Global Health
Dr. Belumund Catague traveled to Quito, Ecuador to spend four weeks completing a reproductive health rotation. He participated in a multitude of settings including a very busy maternity hospital, family medicine clinic, and hematology/oncology inpatient service. He was also able to practice his Spanish language skills as well as to broaden his view point on medicine in another cultural and institutional setting. Dr. Catague had a memorable and enriching educational experience.

**Recruitment**

Resident recruitment remained a high priority for the Program. Sarah Germak and Drs. Fred Miser, John McConaghy, Bill Buoni, and Rupal Oza coordinated the recruitment experience for applicants, providing a personalized approach. Drs. Steven Albrechts and Marie Schaefer were the residents in charge of recruitment for the university and urban tracks. Interest in OSU was higher than ever before. Quality of applicants accepted for interviews was extremely high, and both tracks filled with a group of talented, motivated future Family Physicians.

The following will be first-year residents selected for the 2013-2014 academic year:

The Division of Sports Medicine is an active element of the Department of Family Medicine regarding its three-part mission of clinical practice, research, and education. All faculty members contribute to all parts of the mission and are engaged in both clinical care and scholarly activity.

**Faculty:**
Thomas Best, MD, PhD, FACSM, Professor of Family Medicine and Pomerene Chair
James Borchers, MD, MPH, Associate Professor-Clinical of Family Medicine and Team Physician
Kendra McCamey, MD, Clinical Assistant Professor of Family Medicine and Team Physician
Ray Pongonis, DO, Clinical Assistant Professor of Family Medicine and Team Physician
Luis Salazar, MD, Assistant Professor-Clinical of Family Medicine and Team Physician
Jess Wertz, DO, Clinical Assistant Professor of Family Medicine and Team Physician

**Adjunct Faculty:**
Paul Gubanich, MD, MPH, Assistant Clinical Professor of Internal Medicine Team Physician, OSU Sports Medicine
Michael Jonesco, DO, Assistant Clinical Professor of Internal Medicine, OSU Sports Medicine and Team Physician, Capital University
Timothy Hewett, PhD, Director of Research OSU Sports Medicine, Director Sports Health & Performance Institute

**Fellows:**
Kyle Geissler, MD
David Tietze, MD

**National Recognition:**
Dr. Best serves on the President’s Council for Physical Activity and the External Advisory Board for the US Bone and Joint Initiative. Timothy Hewett, PhD is a permanent member of the NIH MRS Study Section.

**Research:**
Research is an important part of the mission of both the Division of Sports Medicine and the Department of Family Medicine. Faculty members participate as PIs, Co-PIs, and investigators on studies within the Division as well as collaborating with Orthopedics, and other departments within the College of Medicine, and other colleges across the campus where appropriate. Faculty regularly travels to regional and national meetings to present their research as well as participate on discussant panels on a wide variety of Sports Medicine topics. As a group, the Division authored over 38 peer-reviewed papers. The faculty also delivered 76 presentations at international, national and local conferences.

- In addition to his work on his NIH funded research project on eccentric muscle mass, Thomas Best, MD, PhD, participated in two other nationally funded studies.
- Dr. James Borchers continues his work investigating the role of topical vs. oral non-steroidal anti-inflammatories following ankle sprains. This is a prospective study to determine if there is a difference in recovery between topical and oral agents in Division-1 athletes.
- Dr. Hewett is principal investigator on 2 NIH funded studies and co-investigator on 2 other NIH projects. He is principal investigator on numerous industry funded studies.

**Fourth Year Medical Student Sports Medicine Rotation:**
The Division of Sports Medicine is committed to medical student education and offers a four week elective to fourth year medical students Sports Medicine.

**The primary goals of the rotation are:**
- Exposure to a multidisciplinary approach for the practice of Sports Medicine
- Become familiar with common problems encountered in Sports Medicine, their presentation, diagnosis and management
- Learn and refine musculoskeletal physical examination skills
- Become familiar with common procedures used in Sports Medicine (i.e. injection techniques, fracture care, splinting/casting)
SPORTS MEDICINE

Requirements of the rotation include:
- Office hours with assigned physician(s)
- Attendance at weekly Sports Medicine conferences
- Attendance for training room coverage with their assigned physician
- Attendance at three athletic events over the four week rotation with their assigned physician
- Complete required readings
- Presentation with a written paper on topic of choice at the end of the four week rotation

Faculty for the rotation includes:
- Thomas Best MD, PhD
- James Borchers MD

The rotation is offered for six four week blocks during the academic year. A total of 10 students completed the rotation during the 2012 – 2013 Academic Year. Evaluations for the elective were high and the elective is one of the OSUCOM most popular and highly rated among fourth year electives.

Resident Education:
The Division of Sports Medicine supports the mission of resident education within the Department of Family Medicine. An elective is available for R2 residents with an interest in Sports Medicine. A third-year rotation in Sports Medicine is required of all R3 residents in the Department and is completed at the OSU Sports Medicine Center. Regardless of whether the rotation is elective or required, the residents are actively involved with conferences and Grand Rounds during the rotation. Faculty members of the Division also provide resident education via workshops and lectures through the Ohio State Family Medicine Residency Program. This also includes a longitudinal rotation, involving 2nd and 3rd year residents. This rotation provides a more in-depth sports medicine learning experience and is available to qualified applicants. A total of eight residents completed rotations in Sports Medicine during the recent year.

Primary Care Fellowship:
The Division of Sports Medicine is dedicated to advanced education in Sports Medicine by offering a one-year Fellowship in Sports Medicine leading to eligibility to complete the Certificate of Added Qualifications (CAQ) in Sports Medicine. The program currently accepts two fellows per year. The fellowship is accredited by the ACGME; fellows are expected to pass the CAQ exam once their fellowship is completed. In addition, fellows are expected to present at a national meeting of their choice during their year at OSU. Scholarly writing in the form of a systematic review with faculty involvement is also expected. Kyle Geissler, MD and David Tietze, MD both presented abstracts at the AMSSM and ACSM Annual Meetings during the spring of 2013. Along with James Borchers, MD, MPH, they had a systematic review submitted for publication.
Clinical Programs:
OSU Sports Medicine Center, a multidisciplinary treatment center, offers family medicine, orthopedics, physical therapy, and psychological and nutritional counseling services by individuals who understand and are experienced in dealing with competitive and recreational athletes. This expertise is applied to patients who are physically active or wish to embark on a healthier lifestyle. The Department of Family Medicine is a partner with the Department of Orthopedic Surgery and OSU Medical Center in the OSU Sports Medicine Center.

Athletic Team Coverage:
The Division of Sports Medicine provides care for all 36 varsity sports at Ohio State. Faculty members of the Division provide comprehensive care for all athletes at Ohio State along with event coverage for the entire Athletic Department.

During the past year Sports Medicine became the team physician for Capital University, covering its athletic programs and student health. High school coverage continues to be a priority of the Division of Sports Medicine. Faculty and fellows of the Division provide care for many local high schools and for state tournaments for the Ohio High School Athletic Association. A significant amount of time is dedicated to the care of student athletes from the Columbus Public Schools. A free walk-in clinic at East on Saturday mornings continues to draw injured athletes for assessment.

Multiple community events such as Pelotonia are also covered by the faculty and fellows of the Division. Resident and student involvement is encouraged.

Outreach:
The Division of Sports Medicine recognizes the importance of community outreach efforts. The following events reflect the dedication to the community by the Sports Medicine faculty.

- Best TM. Judge, OSUMC Annual Research Day
- Best TM, Team Physician for Columbus Crusaders and Worthington Christian
- Best TM, Team Physician for Columbus Ballet Met
- Best TM. Physician Coverage for Pelotonia
- Borchers JR, McCamey K. OHSAA Boys and Girls Basketball Tournament Coverage
- Borchers JR, Saturday morning injury clinic (free service to Columbus Public Schools)
- Borchers JR, Salazar L. Columbus City Schools Wrestling Championships
- Borchers JR, Physicals, National Youth Sports Program/LifeSports
- Borchers JR, Special Olympics Physicals
- McCamey K. Medical Director for Pelotonia
- McCamey K. AMSSM Education Committee
- McCamey K. Pelotonia Training Series
- McCamey K, Pelotonia Bike with Brutus Event
- Salazar L. Team Physician, Columbus State University
- Pongonis R. Team Physician, Bishop Watterson High School
- Pongonis R. Team Physician Columbus Clippers Baseball Team
- Salazar L, Team Physicals Columbus Public Schools
- Salazar L. Team Physician for Eastmoor and Walnut Ridge High Schools
- Salazar L. Central Ohio Rugby Classic
- Salazar L. Team Physician men’s and women’s OSU Rugby teams
- Salazar L. Physician coverage for Pelotonia
This last year brought many changes to the Ohio State University Center for Integrative Medicine (OSUCIM). This is a unique medical practice center that combines the best of family medicine with evidence-based complementary/alternative medical modalities. The Center is located at 2000 Kenny Road in a 9,460 square foot facility. The Center, in its eighth year of clinical growth, has been part of OSU Medical Center's Primary Care Network.

Dr. Glen Aukerman served as the Medical Director in addition to being the Division Director for Integrative Medicine in the Department of Family Medicine. The Center for Integrative Medicine is a member of The Consortium of Academic Health Centers for Integrative Medicine, and in May 2010, The Ohio State University hosted this national organization’s steering committee Steering Committee meeting and dinner.

The OSU/CIM allows students pursuing degrees in medicine and other healthcare professions opportunities to study integrative medicine’s role in their career of choice. OSU/CIM provides educational sessions for medical students, nurse practitioner students, residents and attending faculty. The OSU/CIM offers a one-year Integrative Medicine Fellowship open to any specialty. The Fellowship offers a unique opportunity for physicians to study with experts in all five domains of complementary medicine as well as integrative family and internal medicine to develop clinical, research, and academic capabilities in the field of Integrative Medicine.

During the past year, The Ohio State University Wexner Medical Center made the commitment to move this center from the Department of Family Medicine to a multidisciplinary center reporting directly to the senior vice-president. They recruited Dr. Kathy Kemper to lead this Center and to recruit a team of multidisciplinary faculty who would provide even more integrative services for our patients and our employees. This will include family medicine and internal medicine as well as other disciplines that could include an integrative oncologist, neurologist, psychiatrist and other disciplines.

Dr. Glen Aukerman chose to retire from this practice on June 30, 2013 and move back to Jackson Center where he started practice so many years ago. He will continue his passion for integrative medicine in Lima, Ohio in cooperation with St. Rita’s Hospital. We appreciate all the energy with which Glen started this center and worked to see it grow to the point that it was ready to move to the next level. Dr. Anup Kanodia is also leaving the university to practice in another setting and we appreciate all be brought to the university during his time with the department.

Practitioners July 2012 thru June 2013 at the Ohio State Center for Integrative Medicine Include:

Integrative Family Medicine ................................................................. Glen Aukerman, MD, DABFP, DABHM
........................................................................................................... Ruslana Kurpita, MD, DABFP, DABHM
........................................................................................................... Anup Kanodia, MD, MPH
........................................................................................................... Melinda Skipper, CNP
........................................................................................................... Kathryn Scholl, MSN,CNP

Integrative Internal Medicine/Pediatrics .................................. Linda Chun, MD, DABIM, DABP
Ayurveda .......................................................................................... Hari Sharma, MD, FRCPC, DABHM
TCM/Acupuncture ........................................................................ David Wang, LAC
............................................................................................................... Hailing Zhang, LAC
Chiropractic Rehabilitation ............................................................. John Grandominico, DC
Massage Therapy ........................................................................ Cheryl Boschert, LMT
............................................................................................................... Rhonda Crockett, LMT
............................................................................................................... Jean LaPolla, LMT
............................................................................................................... Amanda Sonk, LMT

Kathi J. Kemper, MD, MPH, was recruited to The Ohio State University Wexner Medical Center in October, 2012. Dr. Kemper currently serves as the Director of the Center for Integrative Health and Wellness.
The continuing medical education program in the Department, held in conjunction with monthly faculty meetings, offered many outstanding presentations in all areas of family medicine. The evaluations of the presentations were all excellent; many of the speakers have been requested to return in the future to share other timely topics.

Each participant is awarded 0.75 of category 1 AAFP credit. All faculty members are invited to join us on the first Thursday of every month in conference room 233 in the Northwood-High Building (Rardin Family Practice Center).

http://ccme.osu.edu/.
The Department of Family Medicine presently operates on an annual budget in the order of $14 million. From a KRA perspective, it is observed that Dr. Welker inherited a negative situation when she was appointed Chair in 1999-00. Her financial leadership has been remarkable over the past decade with Reserves increasing dramatically until the recent downturn in the economy. In January 2011, the department began hiring new physician faculty in the Faculty Group Practice (FGP) within OSU instead of through Family Medicine Foundation, LLC (FMF). In July 2011, most of the physician faculty who had been dual employed by OSU and FMF, also moved into the FGP to be fully employed by OSU. Due to the change in employment, most of the revenues and expenses moved into the FGP from FMF in July, 2011. The large gain during the 2012-2013 year in the FGP, is due to now being on a cash-based accounting system, which does not allow for accrued salaries, benefits or other commitments which would be paid in the future.

Development efforts have been ongoing in the Department of Family Medicine since it was founded. The 2012-13 academic year continued this history.
While the Family Medicine Development Fund provides support for the Department’s general needs, the rest of our development funds provide support to specific programs including sports medicine, medical student and resident education, research, occupational medicine, and integrative health. Donations to development funds allow immediate use of the gift to support current needs. Our development funds include:

- Family Medicine Development
- Family Medicine Predoctoral Education Development Fund
- Family Medicine Sports Medicine Development Fund
- Family Medicine Residency Development Fund
- Occupational Medicine in Family Medicine
- Family Medicine Research Development Fund
- Family Medicine Scholarship Fund
- Midmark Support Fund
- CMAF Urban Diabetes FITNESS Program
- Family/Sports Medicine Initiative
- Columbus Free Clinic Support
- Family Medicine Chairman Fund
- Clinical Faculty Grant Family Medicine Fund
- Sports Med Clinical Faculty Fund
- Fahey Family Medicine Fund

In addition to development funds, we also have numerous endowment funds that provide annual income based on income earned. As seen in the related KRA graph, for the most part endowment principal has increased yearly but dramatically has done so since 2005-06. (KRA Endowment Principal Graph). Our endowment funds and present cash value include:

- Crisafi-Monte Endowment Fund
- Dr. Peter and Alice Lancione Endowment Fund in Family Medicine
- Thomas E. Rardin Family Practice Center Fund
- Rural Family Medicine Endowment Fund
- Urban Family Medicine Endowment Fund
- Marie J. and Robert S. Young Fund in Family Medicine
- Dr. J. Martin Byers, Jr. Memorial Fund in Family Medicine
- Lloyd L. and Ilma Dowell Family Medicine Fund
- Excellence in Family Medicine Fund
- Family Medicine Medical Student Education and Support Fund
- Mary Jo Welker, MD and Lloyd M Welker Endowment Fund
- Marianna H. and P. Tennyson Williams, MD. Endowment Fund
- Glen F. Aukerman, MD Endowed Fund for Integrative Medicine

Mack DO.  

Mack DO.  

Mack DO.  
- Improving Your Health. OSU Recreational Sports Department, Staff Retreat, Columbus, OH. June, 2013.

Mack DO, Nagel R, Post D, Hurtubise L, Myers M.  
- A Comparison of Three Models to Teach Geriatric Cognitive Vitality. Oral presentation at the Faculty Teaching Scholars, Columbus, OH. October, 2012.

McAlearney AS.  
- Creating a Leadership Development Culture in Health Care Organizations: Translating Research into Practice. Department of Family Medicine, Ohio State University College of Medicine. Columbus, OH.

McAlearney AS.  
- Improving Breast Cancer Measurement and Reporting. The Ohio State University Management College of Medicine Comprehensive Cancer Center Speaker Series, Columbus, OH.

McAlearney AS.  
- Population Health Management: What is It? Department of Family Medicine Annual Meeting, The Ohio State University Management College of Medicine, Plenary Speaker, Columbus, OH.

McAlearney AS.  
- Population Health Management and Health Disparities: Addressing Differences. Ohio State University College of Public Health. Columbus, OH.

McAlearney AS, Robbins J.  
- Getting to Zero Central Line-Associated Blood Stream Infections—And Staying There. Ohio Hospital Association, Columbus, OH.

McConaghy JR, Buoni W.  

McDougle, L.  

McDougle L, Winbush GB.  

Miser WF.  
- Introduction to the ABFM’s Self-Assessment Modules (SAMS). Oral presentation given to The Ohio State University Family Medicine Residents, Columbus, July 18, 2012.

Miser WF.  
- Applying Evidence-Based Medicine in the Care of Your Patients. Oral presentation given to The Ohio State University Family Medicine Residents, Columbus, Ohio, July 18, 2012.

Miser WF.  
- Mistakes in Medicine – Role of the Morbidity & Mortality Conference. Grand Rounds lecture given to the faculty and residents of The Ohio State University Family Medicine Residency Program, Columbus, Ohio, July 25, 2012.
Miser WF. Medical Malpractice 101 – The Missed DVT. One-hour presentation given to The Ohio State University Family Medicine Residency Program, Columbus, Ohio, July 25, 2012.

Miser WF. Management of Type 2 Diabetes Mellitus – 2012 Update. Grand Rounds lecture given to the faculty and residents of The Ohio State University Family Medicine Residency Program, Columbus, Ohio, August 1, 2012.

Miser WF. Initial Care of the Patient with Diabetes Mellitus. Lecture-discussion given to the residents of The Ohio State University Family Medicine Residency Program, Columbus, Ohio, August 1, 2012.

Miser WF. Office Microscopy – Urine and KOH/Wet Preps. Oral presentation given to the residents of The Ohio State University Family Medicine Residency Program, Columbus, Ohio, August 1, 2012.

Miser WF. FP Essentials – Genetic Update. Lecture-discussion given to The Ohio State University Family Medicine Residents, Columbus, Ohio, August 1, 2012.

Miser WF. The Family Physician as Scholar. Oral presentation given to the residents of The Ohio State University Family Medicine Residency Program, Columbus, Ohio, August 8, 2012.

Miser WF. Mindfulness Eating and Diabetes. Oral presentation given to the residents of The Ohio State University Family Medicine Residency Program, Columbus, Ohio, August 15, 2012.

Miser WF. A Family Member in the Exam Room – Helpful or a Nuisance? Grand Rounds presentation given to the faculty and residents at the OSU Family Medicine Residency Program, Columbus, Ohio, October 24, 2012.

Miser WF. Well Child Care – ABFM SAM #1 - Grand Rounds presentation given to the faculty and residents at the OSU Family Medicine Residency Program, Columbus, Ohio, November 21, 2012.

Miser WF. Well Child Care – ABFM SAM #2 - Grand Rounds presentation given to the faculty and residents at the OSU Family Medicine Residency Program, Columbus, Ohio, November 28, 2012.

Miser WF. FP Essentials – Skin Cancer. Lecture-discussion given to The Ohio State University Family Medicine Residents, Columbus, Ohio, January 18, 2013.

Miser WF. Well Child Care – ABFM SAM #3 - Presentation given to the faculty and residents at the OSU Family Medicine Residency Program, Columbus, Ohio, January 30, 2013.

Miser WF. Well Child Care – ABFM SAM #4 - Presentation given to the faculty and residents at the OSU Family Medicine Residency Program, Columbus, Ohio, March 8, 2013.

Miser WF. Role of Health Literacy on the Management of Diabetes Mellitus - Presentation given to students enrolled in the OSU Health Literacy Pharm 7090 course, Columbus, Ohio, March 18, 2013.

Miser WF. FP Essentials – Common Fractures. Lecture-discussion given to The Ohio State University Family Medicine Residents, Columbus, Ohio, April 10, 2013.

Miser WF. The Pelvic Examination. A three-hour workshop given to the Ohio State University Family Medicine first-year residents, Columbus, Ohio, June 14, 2012.

Miser WF. The Resident as Teacher. A three-hour workshop given to the residents of the Ohio State University Family Medicine Residency Program, Columbus, Ohio, June 27, 2012.
