OHIO MEDTAPP SUMMIT
“TRANSFORMING HEALTHCARE THROUGH STATE-UNIVERSITY PARTNERSHIPS”

September 23, 2014
8:00 am–4:35 pm
The Blackwell Hotel and Conference Center
Columbus, Ohio

Hosted by:
The Ohio Department of Medicaid and The Ohio Colleges of Medicine Government Resource Center

The inaugural Medicaid Technical Assistance Program Policy (MEDTAPP) Summit, through a variety of focused sessions, will:

- Highlight MEDTAPP’s vision, strategic priorities, and partners;
- Share results of recent healthcare research, quality improvement activities, and data analysis innovations; and
- Encourage dialogue, partnerships, and continued learning among state and academic leadership and all program participants.

The event provides a timely opportunity for state and academic leaders, healthcare professionals, and others to engage in discussions about recent research and program innovations designed to improve the health of the Ohio Medicaid population and the effectiveness of the Medicaid healthcare delivery system.

  - **Facilitator:** Mina Chang, PhD, Chief of Health Research and Program Development, Ohio Department of Medicaid (5 minutes)
  - **Panel** (55 minutes)
    - Mark Munetz, MD, Margaret Clark Morgan Foundation Endowed Chair in Psychiatry at Northeast Ohio Medical University (NEOMED) and the Chief Clinical Officer for the County of Summit Alcohol, Drug Addiction and Mental Health Services Board (HCA Principal Investigator)
    - Christina Antenucci, MD, Assistant Professor, Case Western Reserve University, School of Medicine (HCA Principal Investigator)
    - Deborah Larsen, PT, PhD, Director, School of Health and Rehabilitation Sciences, Associate Dean, College of Medicine, Associate Vice President for Health Sciences, and Associate Professor, The Ohio State University College of Medicine (HCA Principal Investigator)
    - Beth Ferguson, MHA, Mental Health Administrator, Ohio Department of Mental Health & Addiction Services
    - Jennifer Higgins, Director of Workforce Development, Ohio Association of Community Health Centers
    - Briana Hervet, PhD, Director, Choose Ohio First, Ohio Board of Regents
- Audience and Panel Dialogue—Future Direction (10 minutes)

Boxed lunches located directly outside ballroom

National, State, Expert and Leadership Plenary to provide a national/state perspective on interdisciplinary team-based care models and how those models link with health services education outcomes as well as state and local efforts to advance workforce capacity to serve Medicaid and underserved populations.

The panel will include:
- Structured questions engaging the panel
- Select HCA projects demonstrating exemplary interdisciplinary models, discussions of best practices, and lessons learned
- Dialogue and questions from the audience

• Audience and Panel Dialogue—Future Directions (15 minutes)  
  • An overview of using data to identify hotspots  
  • Project-specific examples of how data is used to best serve vulnerable populations and evaluate their care  
  • Structured questions engaging the panel  
  • Dialogue and questions from the audience  |
| 4:20pm-4:35pm| Closing Conversation | Discussion of opportunities to further advance the MEDTAPP partnership and discussion of upcoming MEDTAPP funding opportunities |

**CONTINUING MEDICAL EDUCATION**

**Accreditation Statement**
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME®) through the joint providership of The Ohio State University Center for Continuing Medical Education (CCME) and the Ohio Colleges of Medicine Government Resource Center and the Ohio Department of Medicaid. The CCME is accredited by the ACCME to provide continuing medical education for physicians.

**AMA Credit Designation Statement**
The Ohio State University Center for Continuing Medical Education designates this live activity for a maximum of 7 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
PANELIST BIOGRAPHIES

Christina Antenucci, MD, Assistant Professor, Case Western Reserve University, School of Medicine
Dr. Christina Antenucci, MD, is a family physician at the MetroHealth Medical Center in Cleveland, Ohio. For the past 25 years, she has worked in urban underserved settings in Boston, Seattle, and Cleveland. Currently, she is a co-principal investigator for the MEDTAPP Healthcare Access Initiative based at MetroHealth and University Hospitals Case School of Medicine. Her responsibilities include the design, administration, and evaluation of multiple patient care models and learner training programs. The patient-centered care models use inter-professional collaborative teams and include: group medical visits; school-based health clinics; home visits; mobile healthcare teams; and integrated primary care and mental health delivery models. She also helped establish inter-disciplinary learner pipelines comprised of future primary care providers who are placed in these patient-centered care settings for education and training purposes.

Mary Applegate, MD, Medical Director, Ohio Department of Medicaid
Dr. Mary Applegate serves as the Medical Director for Ohio Medicaid and is responsible for the development and implementation of the Medicaid Quality Strategy to improve health outcomes across the state. She is double-boarded in Pediatrics and Internal Medicine and has been in rural primary care practice for over 20 years. Special interests include the systematic application of clinical principles and quality improvement science to health care delivery systems for improved quality in health care and outcomes. She has been instrumental in driving change in perinatal health and mental health integration efforts. Dr. Applegate is a fellow of both the American Academy of Pediatrics and the American College of Physicians and continues to teach residents the practice of quality Medicine.

John Campo, MD, The Ohio State University Wexner Medical Center
Dr. John V. Campo is Sinsabaugh Professor and Chair of the Department of Psychiatry and Behavioral Health at The Ohio State University (OSU) College of Medicine and the OSU Wexner Medical Center. He previously served as Chief of the Division of Child and Adolescent Psychiatry at OSU and Nationwide Children's Hospital, where he was Medical Director of Pediatric Behavioral Health. A graduate of Lafayette College, Dr. Campo completed medical training at the University of Pennsylvania and residencies in pediatrics at the Children's Hospital of Philadelphia and psychiatry and child and adolescent psychiatry at the Western Psychiatric Institute and Clinic and the University of Pittsburgh Medical Center. He is board-certified in pediatrics, psychiatry, and child and adolescent psychiatry, and has been honored as an NAMI Exemplary Psychiatrist and as a recipient of the American Academy of Child and Adolescent Psychiatry’s Simon Wile Leadership in Consultation Award. Research interests include suicide prevention, the relationship between physical and emotional health, and the integration of behavioral health services in general medical settings.

Mina Chang, PhD, Chief of Health Research & Program Development, Ohio Department of Medicaid
Dr. Mina Chang is the Chief of Health Research and Program Development at the Ohio Department of Medicaid. She directs statewide research, quality improvement, and multi-stakeholder collaborations, and oversees Medicaid contracts in support of efficient and effective administration of the Medicaid program.

Dr. Chang offers more than 14 years of management and leadership experience in operations and development for large healthcare delivery systems including Medicaid, managed care, and behavioral health. She has extensive experience with continuous quality improvement strategies and outcomes-driven collaborations with leaders of health systems, health plans, providers, regulators and consumers. She directed research and quality improvement initiatives including maternal and infant care, integrated care for duals and “hot-spotters”, tele-psychiatry, mobile health, and psychotropic medication management.

She authored publications including topics on care interventions to reduce ER use and the impact of managed care. She specializes in policy, evaluation and quantitative methods, and has held faculty positions at the Ohio State University, the Care Continuum Alliance (CCA) Forum 11 and 13, the 4th & 5th Medicaid Innovations Forum. She recently received the 2014 CCA Outstanding Leadership in Population Health Award. She earned her PhD in Public Policy & Management from the Ohio State University.
John Duby, MD, FAAP, Director, Developmental-Behavioral Pediatrics, Akron Children's Hospital
John C. Duby, MD, FAAP, CPE, is medical director for the Building Mental Wellness project, which is focused on early identification and management of emotional, developmental, and behavioral issues in pediatric primary care. John is Director of Division of Developmental-Behavioral Pediatrics in the NeuroDevelopmental Science Center at Akron Children's Hospital in Akron, Ohio, and Professor of Pediatrics at Northeast Ohio Medical University. He is President of the Society for Developmental and Behavioral Pediatrics.

Beth Ferguson, MHA, Mental Health Administrator, Ohio Department of Mental Health & Addiction Services
Beth A. Ferguson is a Mental Health Administrator at Ohio Mental Health & Addiction Services in Health Integration. She serves in several roles including program manager for the Pediatric Psychiatry Network, and Workforce Development and Integrated Care Development. She also works to facilitate access to care through the advancement of telebehavioral health and telehealth. Ms. Ferguson holds a dual Master's degree in Health Care Administration, and Geriatric Health Management. She is also a certified Project Manager (PMP) and holds certification as a Senior Professional Human Resource Manager (SPHR). Ms. Ferguson has worked in a variety roles in health care for over 25 years including direct clinical care and practice management as well as budget and policy development.

Jessica Foster, MD, Medical Director, Bureau for Children with Developmental and Special Health Needs, Ohio Department of Health
Dr. Jessica Foster currently serves as Physician Administrator for the Bureau for Children with Developmental and Special Health Needs (BCDSHN) and Ohio’s Title V Children and Youth with Special Health Care Needs Medical Director at the Ohio Department of Health (ODH). The BCDSHN at ODH houses programs serving children with a wide range of developmental and special health needs including BCMH (Children with Medical Handicaps program), Genetics, Infant Hearing, Ohio’s Birth Defects Information System (OCCSN), Community Dietician program, Sickle Cell program, and others. She is a board certified Developmental-Behavioral Pediatrician and prior to her current position at ODH, she worked as a Clinical Assistant Professor of Pediatrics at Nationwide Children's Hospital and The Ohio State University where she was a member of the LEND (Interdisciplinary Leadership Education in Neurodevelopmental and Related Disabilities Training Program) faculty at the Nisonger Center. She completed her fellowship training in Developmental-Behavioral Pediatrics and her Masters of Public Health at the University of Kansas in Kansas City, Kansas.

Steven Gabbe, MD, Chief Executive Officer and The Ohio State University Wexner Medical Center, Senior Vice President for Health Sciences, The Ohio State University
Dr. Steven Gabbe is one of the world's leading experts on the complications of diabetes in pregnancy. Dr. Gabbe led Ohio State to its first ranking on the U.S. News & World Report “Best Hospitals” Honor Roll in 2009. In 2013, the Medical Center achieved top rankings in 10 specialties, including cancer and cardiology. OSU was again named the Best Hospital in Columbus. OSU’s College of Medicine was ranked 38th in research and 24th place in primary care among in the 2014 U.S. News & World Report “America’s Best Graduate Schools.”

Dr. Gabbe completed his undergraduate degree magna cum laude at Princeton University, his medical degree with Alpha Omega Alpha honors at Weill Cornell Medical College, a residency in obstetrics and gynecology at Boston Hospital for Women and a clinical fellowship at Harvard Medical School. He was dean of the Vanderbilt University School of Medicine for seven years before returning to Ohio State in 2008.

Katie Gaul, Deputy Director, Health Workforce Technical Assistance Center
Katie Gaul is a research associate with the Program on Health Workforce Research and Policy at the Cecil G. Sheps Center for Health Services Research at the University of North Carolina at Chapel Hill. The Program houses the AHEC-supported North Carolina Health Professions Data System, which has been collecting, analyzing and reporting data on licensed health professionals in the state since 1979. Ms. Gaul also serves as the Deputy Director of the Health Workforce Technical Assistance Center, a collaboration between the Center for Health Workforce Studies at SUNY-Albany and the Sheps Center, whose mission is to provide technical assistance to states and organizations that engage in health workforce planning.
Orman Hall, MA, Director, Governor Kasich's Cabinet Opiate Action Team
As Gov. Kasich's point person for one of his top priorities, the war on opiate abuse, Orman Hall brings much expertise to this role within the Governor's Cabinet. He has more than 20 years of experience in the management, planning, monitoring and evaluation of public mental health and substance abuse services, and is widely regarded for his work around opiate addiction and prescription drug abuse. He served as Governor Kasich's director of the Ohio Department of Alcohol and Drug Addiction Services (ODADAS) from January 2011 until June 2013.

Prior to joining ODADAS, Director Hall was executive director of the Fairfield County Alcohol, Drug Addiction and Mental Health Board since 1989. He also served as Chairman of the Fairfield County Opiate Task Force. He holds a master's degree in social science education and a bachelor's degree in education, both from Marshall University.

Briana Hervet, PhD, Director, Choose Ohio First, Ohio Board of Regents
In her position as Director of Choose Ohio First, Dr. Hervet monitors enrollment in STEM and STEM-related majors, and forecasts the need for specific graduates based on the potential for employment opportunities within the state. Throughout all of her professional and volunteer work, Dr. Hervet has sought to increase access to college and the success of first-generation, low-income, and underrepresented students. As a Resident Advisor during her undergraduate studies, Dr. Hervet saw students give up on earning their college degree due to being unprepared for either the academic or social challenges of college life leading her to serve students who may not view higher education as an option.

Dr. Hervet earned a Bachelor of Arts in Communication degree and a Master of Arts degree in Communication, with a focus on behavioral communication from The Ohio State University. She has also earned a Ph.D. in Human Services from Capella University.

Jennifer Higgins, Director of Workforce Development, Ohio Association of Community Health Centers
Jennifer Higgins joined OACHC in January 2012 as the Director of Workforce Development. Jennifer will be partnering with organizations throughout the nation to increase the visibility of opportunities within CHC’s in Ohio. Part of her job is to assist in building strong partnerships between Ohio’s CHC’s and hospitals, professional schools, associations and more. Prior to working at OACHC, she was the Director of Human Resources for a community health center organization in central Ohio. Ms. Higgins has a dual B.S. from Franklin University in HR Management and Business Administration and is certified as a CERP (Certified Employee Retention Professional).

Mark Hurst, MD, Medical Director, Ohio Department of Mental Health & Addiction Services (OhioMHAS)
In his role as Medical Director of OhioMHAS, Mark Hurst, MD, provides leadership for clinical services at all of the state’s regional psychiatric hospitals and community-based organizations. Dr. Hurst is board certified in psychiatry and addiction psychiatry and has, throughout his career, has advocated for the adoption of evidence-based practices such as integrated treatment for substance abuse and mental illness, modern psychopharmacology, and trauma informed care as a way to maximize recovery on an individualized basis. He has been on the faculty of The Ohio State University Department of Psychiatry since 1989, and has published on multiple topics in psychiatry, addiction treatment, and psychopharmacology and has made numerous presentations on these topics locally, regionally, and nationally.

Dr. Hurst is a graduate of Muskingum College and the Medical College of Ohio and completed his psychiatry residency training at the University of Michigan and The Ohio State University.

Jay Iams, MD, The Ohio State University Wexner Medical Center
Dr. Jay Iams is an Emeritus Professor of Obstetrics and Gynecology at The Ohio State University Wexner Medical Center. After receiving BA and MD degrees from the University of Wisconsin-Madison, he completed a rotating internship at the University of New Mexico and a year of pediatric residency in Phoenix before moving to Ohio State in 1975 to train in obstetrics and gynecology and maternal fetal medicine. His clinical and research interest is prevention of prematurity. He is the Principal Investigator at Ohio State for the NICHD Maternal Fetal Medicine and Nullipara Research Networks, and is the Obstetrical Lead for the Ohio Perinatal Quality Collaborative. Dr. Iams is Associate Editor of the American Journal of Obstetrics & Gynecology and an editor of the 5th, 6th & 7th editions of Creasy & Resnik’s Maternal Fetal Medicine.
Brandi Johnson, MBA, CMPE, Operations Manager, Holzer Medical Clinic
Brandi Johnson is an Ambulatory Operations Leader for Holzer Health System with more than 10 years of healthcare management experience in various specialties such as Family Practice, Obstetrics and Gynecology, Ophthalmology, Urgent Care, Otolaryngology, Dermatology and Gastroenterology. She has spent much of her career developing and enhancing physician practices for both the acute and ambulatory operations. She currently has operational responsibility for 18 providers, more than 40 support personnel and represents Holzer Health System as the Principal Investigator for the MCH Strong Start Ohio Project.

Ms. Johnson received her undergraduate degree in business management from Shawnee State University and her graduate degree in Business Administration – Entrepreneurship from the University of Rio Grande.

Kelly Kelleher, MD, Director, Center for Innovation in Pediatric Practice and Vice President of Health Services Research at The Research Institute at Nationwide Children’s Hospital
Dr. Kelleher is a pediatrician and health services researcher focused on improving and measuring the quality of pediatric care for high risk children affected by social determinants of health, violence, neglect, alcohol, drug use or mental disorders. He has been continuously funded by NIH since shortly after completing his training in 1990 and is now the PI on projects from NIMH, AHRQ, and CMS/CMMI. He is involved in strategy development for the Nationwide Children’s Healthy Neighborhood, Healthy Family zone. Dr. Kelleher also participated in the development of the DSM-PC, a nomenclature for mental health problems in primary care, the Psychosocial Committee and the Mental Health Task Force. He is currently on the Mental Health Work Group and chairs the Pediatric Care Online Advisory Committee.

Carole Lannon, MD, MPH
Carole M. Lannon, MD, MPH, is Director, Learning Networks Core and Professor of Pediatrics at the James M. Anderson Center for Health Systems Excellence at Cincinnati Children’s Hospital Medical Center and Senior Quality Advisor for the American Board of Pediatrics. She is nationally recognized for her work in improvement science. Dr. Lannon is the design and implementation lead for the Ohio Perinatal Quality Collaborative, the National Pediatric Cardiology Quality Improvement Collaborative, and the Ohio Home Visiting Collaborative Learning Network. She is principal investigator of the pediatric Center for Education and Research in Therapeutics (CERTs), funded by AHRQ and a member of the PEDSnet.

Deborah Larsen, PT, PhD, Director, School of Health and Rehabilitation Sciences, Associate Dean, College of Medicine, Associate Vice President for Health Sciences, and Associate Professor, The Ohio State University College of Medicine
Dr. Larsen is in her 25th year as an educator at The Ohio State University and 10th year as the Director of the School of Health and Rehabilitation Sciences. Over the last 6 years, she has joined with her colleagues in Medicine, Nursing, Pharmacy and Social Work to offer an interdisciplinary case management course, focused on developing awareness and appreciation of other healthcare providers’ contributions to patient care, enhanced communication skills, and best practices in team-based patient management. With the funding of the MEDTAPP initiative, the course became part of a larger health science focus to prepare interdisciplinary teams to work with underserved populations. With the second funding MEDTAPP Access Initiative, Dr. Larsen assumed the Principle Investigator role to facilitate this broad multi-college initiative, co-chairing the Interprofessional Education committee and leading the development of other educational activities in support of interdisciplinary training.

Beverley Laubert, MA, State of Ohio Long-term Care Ombudsman
Beverley Laubert, MA, has been an ombudsman for twenty-seven years, including twenty as the State Long-Term Care Ombudsman in Ohio. She holds a Bachelor of Arts in Gerontology from Kent State University and a Master of Arts from The Ohio State University School of Public Policy and Management, with an emphasis on strategic leadership and long-term care.

She leads statewide ombudsman advocacy for long-term care consumers by participating in policy discussions with executive agencies and the legislature. She has provided invited testimony before the National Commission on Quality Long-Term Care and the United States Senate Special Committee on Aging. Beverley held two terms as
President of the National Association of State Long-Term Care Ombudsman Programs and was a member of the Leadership Council of the National Consumer Voice for Quality Long-Term Care. In 2014 she was elected as Chairman of the Board of the national Advancing Excellence in Long-Term Care Collaborative.

Brad Lucas, MD, Chief Medical Officer, Buckeye Health Plan
Dr. Brad Lucas is the Chief Medical Officer for Buckeye Health Plan, a subsidiary of Centene Corporation. Centene manages care for 2.8 million members across 19 states. Dr. Lucas helps Centene health plans build programs that reduce the rates of preterm birth, low birth rate, and infant mortality. Dr. Lucas has helped build and guide Centene's award winning programs Start Smart for Your Baby, its addiction in pregnancy program and preterm birth prevention programs. Similarly, he is responsible for the development and implementation of programs that improve clinical outcomes and ensure high quality care across all medical conditions for Buckeye members.

Dr. Lucas completed his OB/GYN residency at Johns Hopkins Hospital. He has enjoyed caring for Medicaid recipients and the underprivileged throughout his career and continues to see patients at AxessPointe Community Health Center. He is also a Fellow of the American College of Obstetrics and Gynecology.

John McCarthy, Director, the Ohio Department of Medicaid
State Medicaid Director John McCarthy oversees the Ohio Department of Medicaid (ODM), Ohio's first cabinet-level state Medicaid agency. Through its network of more than 75,000 active providers, Ohio Medicaid makes coordinated, person-centered care available to residents in all regions of Ohio. The department has become a cornerstone of the Governor's Office of Health Transformation (OHT), which Governor John R. Kasich created in 2011. In conjunction with the Office of Health Transformation Director Greg Moody, Director McCarthy and his team have implemented a series of innovative policy initiatives that have modernized the Medicaid program by improving the quality of health services at a substantial value to Ohio's taxpayers.

Director McCarthy has a master's degree in public affairs from Indiana University's School of Public and Environmental Affairs and a bachelor's degree in chemistry from Indiana University.

Hope McGonigle, PhD, Health Administrator, Ohio Department of Developmental Disabilities
In addition to her role as a Medicaid Health Administrator at the Ohio Department of Developmental Disabilities, T. Hope McGonigle, PhD serves as Data Warehouse Business Owner and is responsible for applying data knowledge to the Department’s various strategic and research-related projects. She contributes to NCI, OMAS, and other ongoing surveys. Dr. McGonigle has over 15 years of experience with the Ohio Medicaid system. Prior to working at DODD, she was a manager in Non-Institutional Medicaid Benefits and worked in Strategic Development for ODJFS. Dr. McGonigle is committed to data stewardship and dissemination. Over the past year, she has lead the training process for the Data Warehouse business intelligence system and manages a user base of over 700 staff representing all 88 county boards in Ohio.

Dr. McGonigle earned her PhD at The Ohio State University of Public Health in Health Behavior and Health Promotion (2003) and her Bachelor's at Miami University (1996).

David McKenna, MD, RDMS, Wright State University Boonshoft School of Medicine and Miami Valley Hospital
David McKenna, M.D. is a Maternal-Fetal Medicine specialist at Miami Valley Hospital in Dayton. He has been an active leader in the Ohio Perinatal Quality Collaborative (OPQC), working on the implementation of the 39 week, antenatal steroids, and progesterone projects. He is actively working to reduce disparities in pregnancy and infant outcomes with the Montgomery County Infant Mortality Coalition and the Ohio Collaborative to Prevent Infant Mortality. He serves on the Clinical Advisory Panel for the MEDTAPP Maternal Opiate Medical Supports (MOMS) Project.
Shahla Meh dizadeh, PhD, Adjunct Associate Professor, Miami University, Department of Sociology and Gerontology

Shahla Meh dizadeh earned her PhD from the University of Cincinnati in Economics in 1981. Since then, she has directed several projects on the topics of Ohio’s older disabled population, long-term care Medicaid applicants, and chronically disabled older people in Ohio. Most recently, she has worked as a Senior Research Scholar and an Adjunct Associate Professor at Miami University in Oxford, Ohio. In 2009, the Ohio Association of Gerontology and Education awarded Dr. Meh dizadeh the Researcher of the Year Award.

Greg Moody, MPA, Director, Governor’s Office of Health Transformation

Governor John R. Kasich appointed Greg Moody in January 2011 to lead the Office of Health Transformation. OHT is responsible for advancing Governor Kasich’s Medicaid modernization and cost-containment priorities, engaging private sector partners to improve overall health system performance, and recommending a permanent health and human services structure for Ohio. Prior to joining the Kasich Administration, Director Moody was a senior consultant at Health Management Associates, a national research and consulting firm that specializes in complex health care program and policy issues. He worked with clients to improve Medicaid system performance, and wrote extensively about state health system innovations for the Commonwealth Fund, National Governor’s Association, and other foundations.

Director Moody has a Masters in Philosophy from George Washington University and Bachelors in Economics from Miami University.

Mark Munetz, MD, Margaret Clark Morgan Foundation Endowed Chair in Psychiatry at Northeast Ohio Medical University and the Chief Clinical Officer for the County of Summit Alcohol, Drug Addiction and Mental Health Services Board

Mark R. Munetz, MD, directed community psychiatry training at NEOMED from 1992-2014 and served as medical director for the Summit County Alcohol, Drug Addiction and Mental Health Services Board from 1992-2012. At NEOMED Dr. Munetz directs the Ohio Criminal Justice Coordinating Center of Excellence, the Ohio Program for Campus Safety and Mental Health and the Best Practices in Schizophrenia Treatment (BeST) Center. He has held faculty positions at the University of Pittsburgh, University of Massachusetts, and Case Western Reserve University. Dr. Munetz has helped plan, implement and study jail diversion programs for individuals with serious mental disorders, including the Crisis Intervention Team program and mental health courts.

Tracy Plouck, MPA, Director, Ohio Department of Mental Health & Addiction Services

Tracy Plouck has been Director of the Ohio Department of Mental Health & Addiction Services since July 2013, previously serving as the Director of the Ohio Department of Mental Health since January 2011. She brings strong policy background to her role, having served twice as Ohio’s State Medicaid Director and also as a deputy director with the Ohio Department of Developmental Disabilities. Additionally, Director Plouck has significant state budgeting experience, having served eight years with the Ohio Office of Budget and Management, most recently as deputy director for budget. Director Plouck holds a master’s degree in public administration from The Ohio State University and a bachelor’s degree from Kent State University.

Linda Post, MD, Senior Medical Director, UnitedHealthcare Community Plan of Ohio

Linda Post, MD, is the senior Medical Director for UnitedHealthcare Community Plan of Ohio, a Medicaid Managed Care company. She is responsible for medical management and clinical quality improvement, supporting utilization and case management. She is an active participant in the Ohio Collaborative to Prevent Infant Mortality and a strong supporter of community-based outreach programs. She was involved in the implementation of face-to-face local care management at United, a practice that subsequently became a best practice within UnitedHealthcare as a whole.

Dr. Post earned her medical degree at the Medical College of Ohio in Toledo and spent 3 years as a National Health Service Corps Scholar. She completed her Family Practice residency at MetroHealth Medical Center in Cleveland, Ohio, completed a Robert Wood Johnson Fellowship in Academic Medicine, and subsequently served as the Residency Director and Acting Department Director for the MetroHealth Family Practice Residency program.
Patrick Stephan, Deputy Director, Medicaid Development and Administration, Ohio Department of Developmental Disabilities

No biography listed.

Jeffrey Susman, MD, Chair of Medical School Deans, and Dean, Northeast Ohio Medical University
Dr. Susman graduated cum laude from Dartmouth College and Dartmouth Medical School and fulfilled his National Health Service Corp Scholarship in Wahoo, Neb. before joining the University of Nebraska Medical Center (UNMC) in 1987. He was a key leader of curriculum renewal and the principal investigator on the Interdisciplinary Generalist Curriculum and the Undergraduate Medical Education for the 21st Century grants. Dr. Susman’s research interests include mental health issues in primary care and the translation of best practices into usual care. He has received funding from the NIMH, AHCPR/AHRQ, and HRSA as well as multiple state and private foundation awards. He has served as the Editor in Chief of the Journal of Family Practice, as the chair of the American Academy of Family Physicians (AAFP), Commission on Quality and Practice, and was co-chair of the National Quality Forum Mental Health Outcomes Committee.

Lorin Ranbom, Director, Ohio Colleges of Medicine Government Resource Center
Lorin Ranbom conducts research and policy analysis for government sponsored health agencies. Mr. Ranbom has held positions of responsibility in Ohio government agencies including: the Ohio Department of Job and Family Services (Assistant Deputy Director, Chief of Health Services Research for the Medicaid Program), Ohio Department of Health (Chief of Health Services Research, Director of the State Center for Health Statistics), and the Ohio Commission on Aging (Coordinator of Research and Evaluation). He has represented Ohio with national organizations and panels, including: The Center for Medicare and Medicaid Services, Medicaid Quality Technical Advisory Group Chairman, Board of Directors, National Association of Health Data Organizations, and Jackson Hole Group, Advisory Group on National Health Care Quality Strategy. He has authored publications and delivered presentations on many topics, including: Medicaid managed care performance measurement, reliability of birth certificate data, injuries amongst Medicaid beneficiaries, retention and enrollment of children on Medicaid, results of the Ohio Family Health Survey, children with disabilities, and autism.

Michele Walsh, MD, Chief of Neonatology, University Hospitals Rainbow Babies and Children’s Hospital
Dr. Walsh has spent her entire academic career at RB&C where she has risen through the faculty ranks in the Division of Neonatology. The focus of her research is the epidemiology of neonatal lung injury and clinical interventions that might abort the progression to bronchopulmonary dysplasia. She has major expertise in clinical epidemiology and outcomes research, bridging both the respiratory system and neurodevelopmental outcomes. She serves as PI of the Rainbow site for the NICHD-funded Neonatal Research Network, and has provided novel leadership in multicenter trials, both within and beyond this Network. In addition, she is on the Executive Committee of, and is the Lead Neonatal Physician for the Ohio Perinatal Quality Collaborative. Most recently she has served as PI of the Ohio Children's Hospitals’ Neonatal Research Consortium focusing on Neonatal Abstinence Syndrome.
