DOIM Clinician Scientist Trainee Research Day

Thursday, May 29, 2014
12:00 – 4:00 pm
Biomedical Research Tower
460 W. 12th Avenue

The Ohio State University
Wexner Medical Center
Department of Internal Medicine
Dear Participants and Attendees:

We look forward to seeing you at the 2nd Annual Department of Internal Medicine Clinician Scientist Trainee Research Day. Last year, we had a wonderful launch of research presentations by our trainees and this year’s meeting has already surpassed our expectations. This year’s event will feature over 80 poster presentations and multiple oral presentations from fellows, residents, and medical students representing all areas of the department.

The Department of Internal Medicine has always had a strong tradition of research and currently ranks #23 in the Blue Ridge national rankings of Departments of Medicine. Our consistent advancement in these rankings corresponds with the increasing academic reputation of our department. In 2000, we were ranked #47 in NIH funding. So, the current ranking position in NIH funding reflects true dedication to improving efforts in research and advances in the practice of medicine. The strength of our medical center and department has been best known for excellence in clinical and translational research. The dedication to outstanding clinical care and education clearly are in line with advances in these research metrics. We know that the trainees featured here today will continue this tradition.

We hope that you enjoy your experience at the 2nd Annual Department of Internal Medicine Clinician Scientist Trainee Research Day and thank you for your participation.

Michael R. Grever, MD
Associate Dean for Medical Services, College of Medicine
Chairman and Professor, Department of Internal Medicine
Professor, Department of Pharmacology
Bertha Bouroncle, MD, and Andrew Pereny Chair of Medicine
Co-Leader, Leukemia Research Program, OSU-James Comprehensive Cancer Center
CD39 expression on circulating blood components prolongs the time to ferric-chloride-induced carotid artery thrombosis in mice

Abstract #1
Adam Reynolds
Internal Medicine Residents and Interns
Traditional Track
Advisor: Richard Gumina

Inflammatory protease caspase-1 is secreted from monocytes in a stably active form in response to inflammasome activation

Abstract #2
Obada Shamaa
MD/PhD Students
MSTP
Advisor: Mark Wewers

Phosphatase and tensin homologue deleted on chromosome ten (PTEN): A critical balance of expression is required for maximum natural killer cell cytolysis of tumor cells.

Abstract #3
Edward Briercheck
MD/PhD Students
MSTP
Advisor: Michael Caligiuri

A novel anti-Nucleolin scFv for cancer therapy

Abstract #4
Timothy Richmond
Medical Students
Advisor: Carlo Croce

Acquired Resistance to Fibroblast Growth Factor Receptor Inhibitors in Cancer

Abstract #5
Senthil Damodaran
Internal Medicine Fellows
Hematology/Oncology
Advisor: Sameek Roychowdhury

Precision Cancer Medicine: Genomics driven targeted therapies for advanced malignancies

Abstract #6
Senthil Damodaran
Internal Medicine Fellows
Hematology/Oncology
Advisor: Sameek Roychowdhury

Anti-bacterial assay of OSU03012-derived lead compounds against Mycobacterium tuberculosis within human macrophages

Abstract #7
Tejas Sinha
Medical Students
Advisor: Larry Schlesinger

Changes in Thoracic Impedance Measured via the Azygos Vein with the remede® System Indicate Worsening Heart Failure

Abstract #8
Adam Pleister
Internal Medicine Fellows
Heart Failure
Advisor: William Abraham

Analysis of mortality among recipients of continuous flow left ventricular assist devices. A single center experience

Abstract #9
Clint Allred
Internal Medicine Residents and Interns
Traditional Track
Advisor: Ayesha Hasan

The Impact of Inappropriate Implantable Cardiac Defibrillator Shocks on Cardiovascular Morbidity and Mortality.

Abstract #10
Nishaki Mehta
Internal Medicine Fellows
Cardiovascular Disease
Advisor: Steven Kalbfleisch

African American Nondiabetic, Postmenopausal Women (AAW) Are More Resistant to Anti-Inflammatory Effect of Aspirin Therapy Than White Women (WAW)

Abstract #11
Nora Alghothani
Internal Medicine Fellows
Endocrinology
Advisor: Kwame Osei
Ethnic Disparities in Cardiovascular Risk Factors in Prediabetes: The African American Paradox
Abstract #: 12
Sara Healy
Internal Medicine Fellows
Endocrinology
Advisor: Kwame Osei

The Impact of Insurance and Socioeconomic Status on Outcomes for Patients with Left Ventricular Assist Devices
Abstract #: 13
Sakima Smith
Internal Medicine Fellows
Cardiovascular Disease; Heart Failure
Advisor: Randi Foraker

Do gender differences in patients with Obstructive Sleep Apnea impact Atrial Fibrillation management
Abstract #: 14
Haley Willard
Internal Medicine Fellows
Cardiac Electrophysiology; Sleep Medicine
Advisor: Mahmoud Houmsse

Elevated BNP Levels During Incident Atrial Fibrillation Diagnosis Are Associated with Adverse Events in Heart Failure Patients
Abstract #: 15
Abiodun Ishola
Internal Medicine Residents and Interns
Traditional Track
Advisor: Sakima Smith

High ATRIA Risk Score is a Significant Predictor for Adverse Events in Heart Failure patients with Atrial Fibrillation
Abstract #: 16
Montoya Taylor
Internal Medicine Fellows
Cardiovascular Disease
Advisor: Ayesha Hasan

Changing the Treatment Paradigm for Previously Treated Chronic Lymphocytic Leukemia Patients with Del(17p) Karyotype
Abstract #: 17
Deborah Stephens
Internal Medicine Fellows
Hematology/Oncology
Advisor: John Byrd

A Phase II study of bevacizumab in combination with trastuzumab and docetaxel in HER2 positive metastatic breast cancer
Abstract #: 18
Meng Zhao
Internal Medicine Fellows
Hematology/Oncology
Advisor: Bhuvaneswari Ramaswamy

Pulmonary Rehabilitation in locally advanced Non-Small Cell Lung Cancer
Abstract #: 19
Hiram Rivas Perez
Internal Medicine Fellows
Pulmonary/Critical Care Medicine
Advisor: Michael Ezzie

Determining novel clinicopathologic correlations of high grade pancreatic intraepithelial neoplasia (PanIN) in pancreatic ductal adenocarcinoma (PDAC)
Abstract #: 20
Jean Park
Internal Medicine Residents and Interns
Traditional Track
Advisor: Somashekar Krishna

Pancreatic Intraepithelial Neoplasia in Resected Pancreatic Lesions: Prevalence, Significance and Implications
Abstract #: 21
Feng Li
Internal Medicine Residents and Interns
Traditional Track
Advisor: Somashekar Krishna

Phase I trial of the PARP inhibitor Veliparib in combination with Carboplatin in metastatic breast cancer
Abstract #: 22
Meng Zhao
Internal Medicine Fellows
Hematology/Oncology
Advisor: Bhuvaneswari Ramaswamy

Developing a novel class of drug to inhibit protein arginine methyltransferase 5 (PRMT5) enzyme dysregulation in mantle cell lymphoma
Abstract #: 23
Fengting Yan
Internal Medicine Residents and Interns
Traditional Track
Advisor: Robert Baiocchi

DOIM Clinician Scientist Trainee Research Day

Agenda
May 29, 2014

12:00—1:00pm: Grand Rounds Presentation .................. 115 BRT
Steven Campbell, Internal Medicine
Fengting Yan, Internal Medicine

1:00—2:30pm: Poster Sessions ................................. 1st Floor BRT

2:30—3:30pm: Trainee Oral Presentations ..................... 115 BRT
Nora Alghothani, Endocrinology
Montoya Taylor, Cardiology
Adam Reynolds, Internal Medicine
Debbie Stephens, Hematology/Oncology
Brian Mieczkowski, Sleep Medicine

3:30—4:00pm: Awards & Closing Remarks .................. 115 BRT

Sections/Poster Locations

Section A: Basic Research Science ......................... Posters 1 – 7
Section B: Clinical and Translational Research ........... Posters 8 – 45
Section C: Clinical Vignettes ................................. Posters 46 – 77
Section D: Education and Quality Improvement Research ........ Posters 78 – 86
