NEW TECHNOLOGY CLINIC

Technology is always changing. Even if you have had education before, you may not know all that your pump or continuous glucose monitor has to offer. We know how hard it can be to make it to multiple appointments. That is why we want to give you the option to see your diabetes educator and the diabetes specialist in the same yearly visit.*

*Separate co-pays may apply. Check with your insurer.

See your diabetes educator and the diabetes specialist in one yearly visit!

Annual visit for people with pumps or sensors

Brush up on your carb counting and diabetes tech skills

Find out if you could benefit from additional education
